Hey Brian,

I'm wondering if this can be added to outreach/ clean up list. The Park Rangers have provided some more detailed information. There was argument as to where this was exactly because the resident didn't provide adequate information. I think people are concerned because of the rain and how close they are to the river.

Thanks!

Cc: Mary Rodriguez <Mary.D.Rodriguez@lacity.org>

Ana and Hector,

We patrolled from the west side of the river at Harwood and were able to see what appears to be three encampments on the east bank.

<https://www.google.com/maps/place/34%C2%B005'27.2%22N+118%C2%B013'50.3%22W/@34.0919269,-118.2306752,368m/data=!3m1!1e3!4m5!3m4!1s0x0:0x0!8m2!3d34.09089!4d-118.23064>

Attached are photos taken

- Shows the encampments on the east bank
- Relative current condition of the river, medium height and speed of the river

- A guard rail in need of repair a few feet south on the west bank from Harwood

Attached is a Navigate LA Representation of the area. It appears to be in CD1 and US Army Corp of Engineers property. However, there is a DWP Tower in the area.

I will foot patrol the area and the access from homeless folks soon. Request we expand the discussion to the group that has been attending to the river, coordinated by Hector and Mary.

Hi, please need your help to file second report on growing illegal homeless camp 250 feet north of the DWP utility tower, against the fence in the narrow easement on top of the levy wall.

We had this same problem last year
But they were under the tower.

The camp is made up of 10-12 tents, w: bikes and dogs. It's located across the channel from Harwood on the eastbank. Please ask dwp to contact LAHSA to offer them relocation to a safe shelter. And enforce no sleeping on top of East Bank.

Subject: Fwd: Request for Copy of DPH City Hall East Inspection Report
Attachments: CO0161869 - Report for 200 N. Main St., Los Angeles 90012.pdf; CO0160299 - Report for 200 N. Main St., Los Angeles 90012.pdf; ATTACHMENT- MAP.PDF

We received copies of LAC DPH's report for its inspection of the exterior of CHE and the 6th Floor of CHE. Their report is attached.

The reports are as we expected. LAC DPH found no evidence of a rodent infestation or rodent activity on the 6th Floor of CHE. There is no re-inspection planned. LAC DPH did find evidence of active rodent burrows and runways in several areas around CHE. They attached a map of the active areas to their inspection report. LAC DPH has scheduled a re-inspection of the exterior of CHE on February 28. I am working to get a specific time for the re-inspection. We will make sure we're present for that.

LAC DPH's recommendations are as follows, all of which we are actively pursuing with GSD, RAP, BSS, LASAN, and Cats USA:

1. Trim back all overgrown vegetation in all planters.
2. Knock down/collapse all active burrows in all planters.
3. Remove all trash and dead vegetation from planters and eliminate rodent harborage conditions.
4. Remove all fruit bearing bushes from all planters and eliminate other food sources, such as food debris and trash.
5. Provide an effective rodent control program to include the following:
 1. Place bait station program in all active planters to control rodent activities.
 2. Provide map and log for the bait station program.
 3. Number all bait station as indicated in the bait station map.

Thanks.

Brian

Hi Brian –

We have a start date for construction at our downtown bus layover location. Our contractor is scheduled to begin work on February 25. The lot under development is bounded by 17th, 18th, Grand, and Olive.

We are also leasing two other lots downtown at the southeast corners of 16th and Maple and 16th and Wall. We are a bit further out on starting construction at those sites, but Caltrans has asked that we help address the homelessness issue there as well. Any help you can provide there also would be appreciated.

Thanks again for your help with this challenging situation, Brian.

Hey Ron. Thanks for bringing this up. We will deploy resources to scope out the issue. It'd be great to know what the specific safety concerns are as that will be what determines the intervention.

Generally, if someone wants to know what we're doing as a city to address homelessness, they should go to lamayor.org/homelessness. I also included Angie, the field area rep from MOPE who can provide further engagement.

Hope this helps!

Thanks.

On Wed, Feb 13, 2019 at 3:51 PM Ron Frierson <ron.frierson@lacity.org> wrote:

Hi Christina,

Hope you're well.

DM Chun received an email via LAEDC from Mike Tabassi, owner of Design Knit Inc, a garment manufacturer located at [1636 Staunton Ave](http://1636StauntonAve.com) regarding a homeless encampment that is causing safety concerns for employees and has affected his ability to get a tenant to rent space at his facility. This email came to us from Barbara Levine at LAEDC.

I would like to reply to Mike directly and cc LAEDC with information on what we are doing to help solve or improve the homeless issue in the city. Also, I want to mention (if anything) what we can do to address this specific complaint.

Please let me know if you have any questions.

Thank you!

Brian:

We have been in discussions with Sgt. Padilla, whom I will include here in, but I also want to reach out to you directly related to Divisions 1 and 2 which are bus divisions around the skid row area. These locations have tremendous employee interface, however, the sidewalks have been overtaken by the homeless. Is there any way that we can expedite a clean-up at these location sites? Our employees are becoming very frustrated that the encampments and waste have been there for years and fear for their health and safety. Metro would otherwise be willing to clean these locations, but we are constrained as they are not our property.

Hi Cynthia,

I just got a phone call from Claudia at Antigua Bread 5703 N Figueroa St, Los Angeles, CA 90042 (323) 259-9345. She said that Eddie Richards, an 83 year old homeless veteran, is there and is cold, wet, and shivering. The folks at Antigua are doing their best to help Eddie, but **he needs a change of clothes, a towel, and a blanket.** Do you know if a social service provider could be deployed to Antigua Bread to help Eddie get warm and dry? Thank you very much.

Subject: Fw: New Tents On Tamarind Avenue

LT,

When we did the CSLA clean up last week (after NOT having done a clean up since October in this area) I was STUNNED by the amount of rodent feces (I am no biologist but I am certain that's what it was) that was left behind on the sidewalk. It was VERY VERY obvious that there is a massive infestation in the area. Bureau of Sanitation did not bring a power-washer and the area was sprayed with a garden sprayer with some bleach solution.

I implore the decision makers to recognize this for the public health hazard it is. It is clearly now affecting the apartment dwellers in a much more than anecdotal or inconvenient way. We need to conduct regular clean-ups at our entrenched encampments to stem this infestation.

Please advise on the availability of a CSLA slot or Rapid Response Team that can address Carlos and Tamarind and the nearby Gower and the 101 which is equally unhealthful.

Respectfully,
Sgt Geaney

Subject: New Tents On Tamarind Avenue

Hi Dan,

We are again seeking your help in containing the expanding encampment on Tamarind Avenue. It started with one little tent last week and now has grown to 5 tents and some of them directly across our front gate and building. Yesterday, our electricity box was broken into (see attached photo) with the occupants of the big tent across our building as the main suspects. I didn't have the time to sit and review the camera for that day which I believe would not matter anyway if I attached a snapshot of the person who vandalized it. The point is, we are under siege and we are helpless and defenseless against the homeless population creeping into the little space we call our front yard. As I mentioned in my earlier email, bad things happen whenever these transients are camped out close to our building. And that is just the immediate threat we are facing. With the news of typhus scare affecting city hall employees, it made us realize that some of the building residents next to the encampment on Carlos Avenue and Tamarind Avenue may already be suffering from the disease without knowing it. I have recently received complaints from two residents of the presence of mice in their units. I have attached photos of dead rat/mouse to prove my case. This has never happened before and for the first time I had requested our pest control company for treatment and traps. Even roaches that can be seen crawling in and around our building are carriers of deadly diseases. These transients don't have toilets and trash bins and because no one is regulating the disposal of their waste they discard them in the most unhealthy way. The cul-de-sac area where the planters are located is probably serving as their toilet now - who's to stop them.

So please, we are appealing to you and everyone out there who can help us. We will only feel safer if Tamarind Avenue remains tent free. Now that the rains have stopped, we hope you can do something to prevent it from getting worse than it already is.

Thank you.

Gil

Hi UHRC Team,

Can we assist Foothill Transit by scheduling a Rapid Response to the below located bounded by 17th, 18th, Grand, and Olive in the super early morning of Monday, February 25th? If it's possible to visit the location the evening before on February 24th, that would be great, but then it would have to be a patrol unit, right?

Thanks.

Hi Brian –

We have a start date for construction at our downtown bus layover location. Our contractor is scheduled to begin work on February 25. The lot under development is bounded by 17th, 18th, Grand, and Olive.

We are also leasing two other lots downtown at the southeast corners of 16th and Maple and 16th and Wall. We are a bit further out on starting construction at those sites, but Caltrans has asked that we help address the homelessness issue there as well. Any help you can provide there also would be appreciated.

Thanks again for your help with this challenging situation, Brian.

Thanks, Brian. This is super appreciated by CD11 and CD5 (I'm sure).

I think the system as its proposed in the email looks fine. I'd like to know what the numbers are after the first full week of collection, if possible. One quick question - will the pick up be routine, every Friday at 10:30am? Also, when LASAN goes out there, trash is often left on both Globe and Tuller, slightly north of Venice, taking up parking spots and making the public right of way non-passable, I'm wondering if there is a way that folks at LAHSA can remind people on both those streets as well.

Again, thanks for this. I'm hoping this will reduce some of the trash build up.

Best,
Hannah

Subject: Pilot Program at Venice and Globe

Good afternoon all,

LASAN will be piloting a program at the Venice and Globe location. Our WLA district will be providing service to the location.

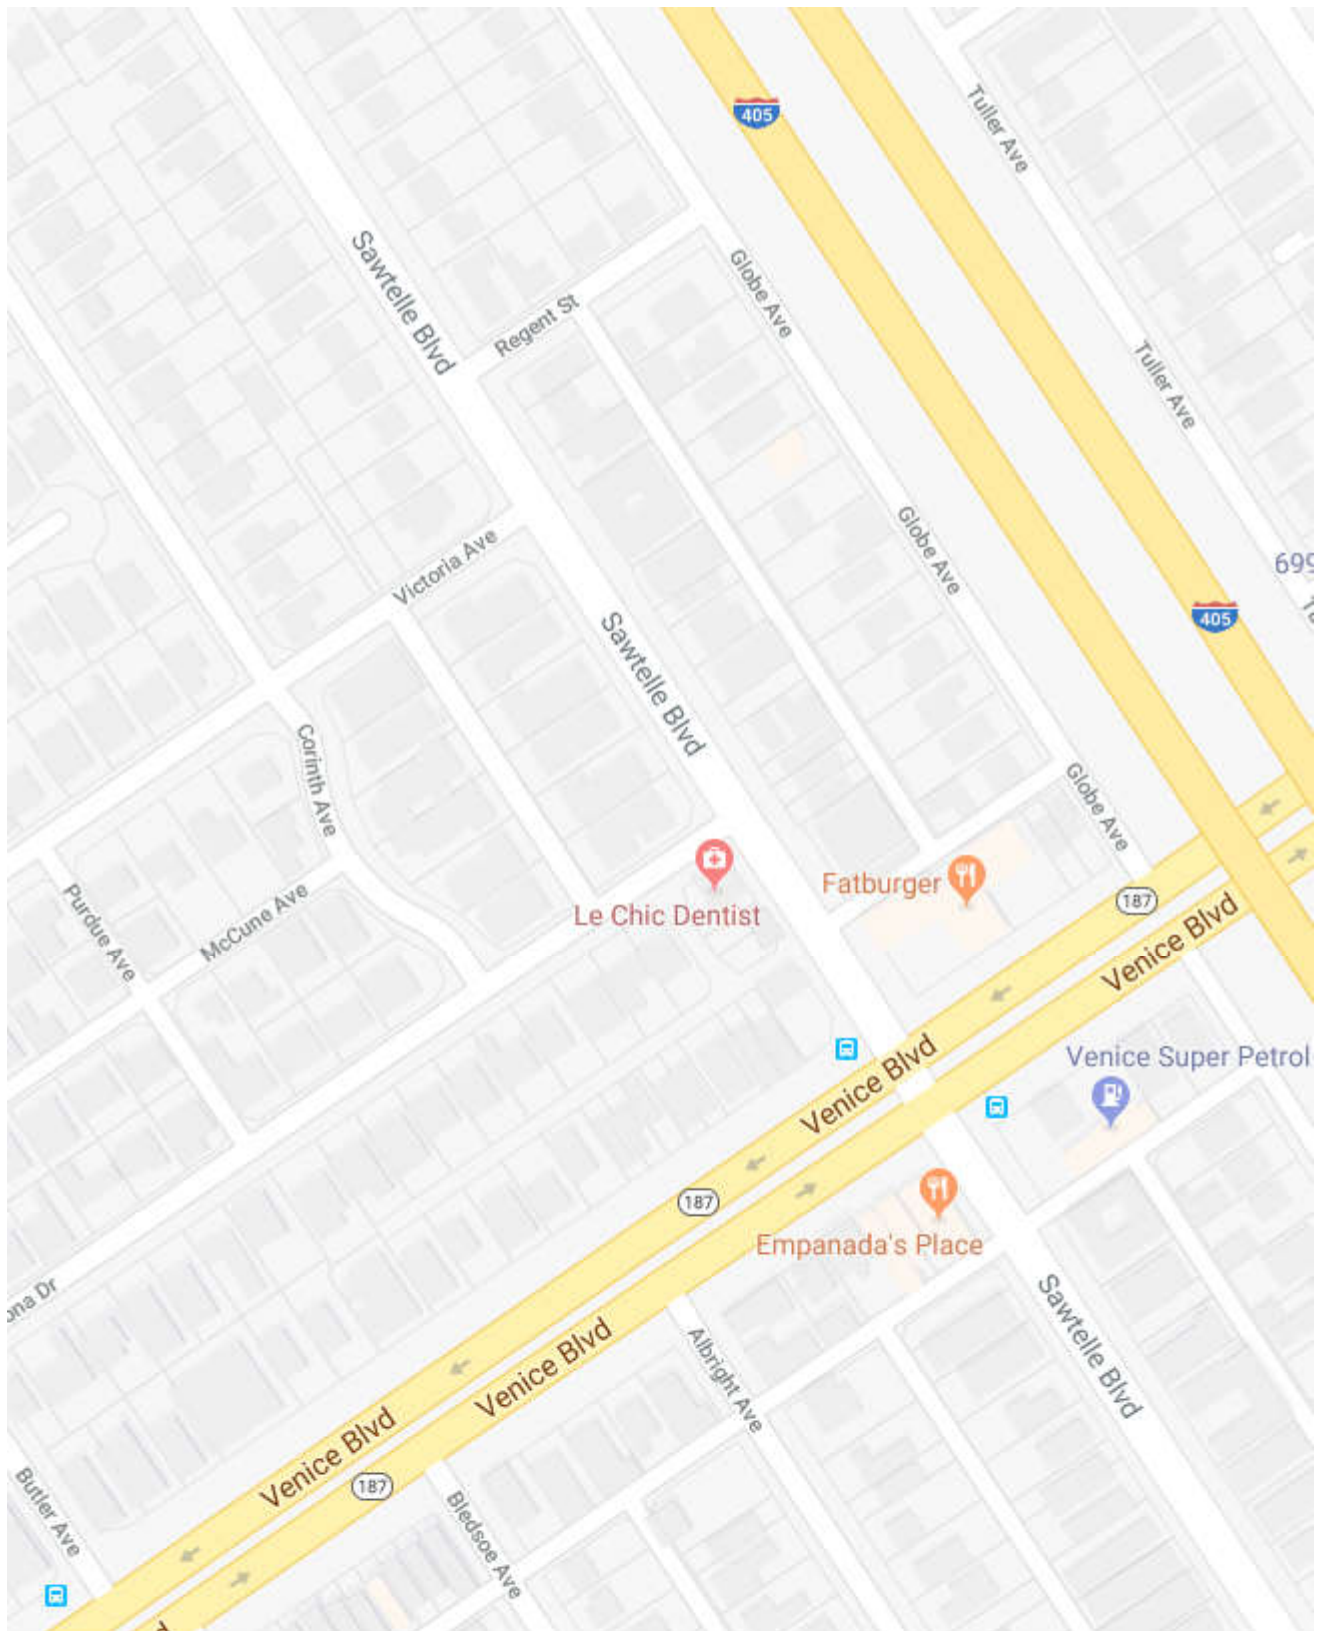

- WPD will be delivering LASAN trash bags (2 boxes of 50) to the UHRC today (2/13/19).
- LAHSA outreach will collect bags from the UHRC tomorrow morning (2/14/19) and pass out to clients at Venice and Globe (LAHSA will provide the UHRC of the number of bags distributed).
- LAHSA will notify clients that LASAN vehicle will be at the designated location (map attached) to collect rubbish at 10:30 am on Friday (2/15/19).
- LASAN driver will take a photo of the collection site upon arrival, after collected and get a count of bags collected.
- UHRC will track number of bags distributed versus number of bags collected weekly and monitor waste on curbside by encampment.

Thank you to all parties assisting with this clean up effort. Please contact me if you have any questions or concerns.

Respectfully,

Hey Ron. Thanks for bringing this up. We will deploy resources to scope out the issue. It'd be great to know what the specific safety concerns are as that will be what determines the intervention.

Generally, if someone wants to know what we're doing as a city to address homelessness, they should go to lamayor.org/homelessness. I also included Angie, the field area rep from MOPE who can provide further engagement.

Hope this helps!

Thanks.

Subject: Re: Business Concern: Homelessness Encampment

Hey Ron. Thanks for bringing this up. We will deploy resources to scope out the issue. It'd be great to know what the specific safety concerns are as that will be what determines the intervention.

Generally, if someone wants to know what we're doing as a city to address homelessness, they should go to lamayor.org/homelessness. I also included Angie, the field area rep from MOPE who can provide further engagement.

Hope this helps!

Thanks.

On Wed, Feb 13, 2019 at 3:51 PM Ron Frierson <ron.frierson@lacity.org> wrote:
| Hi Christina,

Hope you're well.

DM Chun received an email via LAEDC from Mike Tabassi, owner of Design Knit Inc, a garment manufacturer located at [1636 Staunton Ave](#) regarding a homeless encampment that is causing safety concerns for employees and has affected his ability to get a tenant to rent space at his facility. This email came to us from Barbara Levine at LAEDC.

I would like to reply to Mike directly and cc LAEDC with information on what we are doing to help solve or improve the homeless issue in the city. Also, I want to mention (if anything) what we can do to address this specific complaint.

Please let me know if you have any questions.

Thank you!

Hi Brian,

Per our conversation, today Council District 15 and I were at the corner of 109 and Compton Avenue because there were reports of a safety concerns along the tracks. When we arrived we witnessed several encampments and debris along UP's railroad tracks. These tracks are active and need immediate attention to this area to avoid any derailment from occurring in this area. In addition, the tracks are in close proximity to homes and a block away from a middle school. I am attaching pictures for your reference. Let me know if you have any questions. Any help that you can provide would be greatly appreciated.

Good morning everyone,

I hope this email finds you well. This is Arely with Councilman Joe Buscaino Watts District Office. I wanted to reach out to you all to coordinate a joint clean-up at 1650 E 109th St that is located adjacent to Union Pacific Tracks. We have cleared this area in the past and we truly appreciate your efforts but its time to revisit and conduct another clean. The type of work we need is clearance of inoperable vehicles, tires, trash debris, assessment of multiple dogs that are being abused by owners, and we need to clear the area of trespassers. I also want to add that after speaking to the operator at the UP Hotline, they did inform me that this site has been reported on multiple occasions.

With that said, can we please coordinate efforts for Tuesday(2/19) or Wednesday(2/20) of next week. As seen on the images below, this is an extreme public nuisance that needs to be dealt with immediately.

I look forward to hearing from you all and working together to clear this up. Please let me know if you have any questions or concerns.

re: Winter Shelter Venice Skateboard Park - Athens Park, First To Serve; 70+ Shelter Guest's Abandoned Daily...Not honoring their ad on LAHSA's winter shelter website...

Dear All,

I need your help.

Over 70+ Winter Shelter Guest's are being abandoned at The Venice Skatepark Bus Location daily via the Winter Shuttle Bus when we stay at The Athens Park Gymnasium.

First To Serve is only sending 1 Bus & 1 Van that will accommodate 65 people, when they usually send "3 buses" that can accommodate 150 people daily when we stay at The Santa Monica National Guard Armory.

Jose' The Bus Security Guard, said they only send one bus due to the cost of Gas. Leaving us stranded at the Venice Beach Skatepark with no transportation. His recommendation is to try and take a public bus and walk up to The Athens Park Gymnasium even know the rules say "No Walk-Ups Allowed".

If possible could First To Serve & LAHSA find a way to transport us to Athens Park as with only one bus everyone is desperate and the Venice Skatepark Bus Waiting Area turns into a madhouse when folks are cutting in line and are not patient, - knowing they will be abandoned at The Venice Skatepark if they don't get on the one bus to Athens Park - like they did this past weekend when it rained outside... and Shelter guests had to find a place to sleep outside at Venice Beach illegally and The Santa Monica Public Library Court-Yard or take a public bus and walk up to The Athens Park Shelter...Does LAHSA have bus funding to help First To Serve purchase gas for 3 bus trips? - As **First To Serve advertises on LAHSA's 2018-19 Winter Shelter Site that "all participants will be transported to an alternate location"** when The National Guard needs the Armory for drills...

Thank You for your prompt attention to this serious matter,

Sincerely,

Eric R. Mizrahi, Winter Shelter Participant

forwarding email below we need help from your office to get this area cleaned up and allow students to travel to and from school safely. It bad enough that our city has turned into a portable toilet can we not make school zones a safe area? The mayors office needs to do more to ensure that our kids don't have to step over human waste and needles or be harassed on their way to and from school? Its getting worse not better because your administration permits it. LAPD is doing as much as they can but they need the support from your office to help. I have communicated with Chief Moore about this location many times which is 500' from Campbell Hall and not far from Carpenter Avenue Elementary. Politics and humanitarian issues aside residents have had enough especially considering nearly 1-7 shelter beds goes empty on most days.

Appreciate your help we need this area cleaned up immediately.

4533 Laurel Cyn, Studio City CA 91604 near Campbell Hall and
Carpenter Avenue Elementary

<IMG_0209[1].jpg>

Absolutely ridiculous that nothing can be done to protect these kids and provide them with a safe passage too and from school (Campbell Hall, Carpenter) here in Studio City. They should not have to practically step in the street or walk single file to avoid harassment, human waste and needles when they travel to and from school. I hear from many parents that now choose to drive their kids to school to avoid this area. This location needs to be cleaned up and properly monitored and it is not. I will reach out to Chris Miller as well with Garcetti 's office. My last conversation with the mayors office was that school zones will be prioritized and they may even start to enforce the camping ban given 1 in 7 shelter beds routinely go unused. Even with the limitations and bad legislation these encampments violate so many other areas like the 60 gallon rule and daytime limits. There are things that can be done they just aren't unless folks like myself make a nuisance of ourselves.

I can be reached at 323-654-3742 for follow-up

Chief Moore,

I wanted to update you on the status of what's happening at Laurel Canyon/101 Freeway.

We've had personnel go to this location on at least four different occasions since Sunday. Monday was the only time there was a person there. The Senior Lead for the area made contact and is working on that. SLO Smith is following up with that homeless woman today. But, most of the problem is related to unattended grocery carts full of stuff, blankets and other items.

Sgt. Case advised me that they were off yesterday and that Sanitation has Rapid Response only doing spot cleaning this week and that clean up will happen Wednesday.

I've talked to the SLO and he is going to continue to keep very consistent tabs on what is happening there and addressing through what he can do and the use of HOPE.

Finally, the HOPE team has visited the location every week at the direction of Deputy Chief Pitcher in order to check for activity and take all enforcement and informal means necessary to address the problem.

Please let me know if you need anything else on this.

Thank you

Indeed. I thank you again for your willingness to partner with us to help our retail community harden their target so I can commit more NHWD resources to crime prevention. Detective Ron Lee will be reaching out to you shortly.

Two of my SLOs went by the encampment again today and the attention over the last few days has resulted in it's apparent abandonment. They requested sanitation to clean up the remains.

As you know, this problem has not only affected Studio City and VENTURA Blvd, but also much of our community. We are working at engaging every resource that will partner with us to alleviate the problem. We just met Tuesday with regional managers from LA County Dept of Mental Health, The Los Angeles Housing Services Authority, LA Family Housing and The San Fernando Valley Community Mental Health Center. We developed a communications protocol to ensure faster response from those entities into North Hollywood to give us the best chance of getting people off the street.

We will continue to leverage relationships and work in the field to mitigate this catastrophic situation as best as we can. Information from you and your constituents is always the best source of intel. A clean and fully leased VENTURA Boulevard is in all of our best interests. We continue to be committed to that end state goal.

Subject: Re:

Don, Great touching base with you today and covering the issues. Please send me the info on the retail burglaries and your recommendation and we will try and get the retailers in question including Home Depot to implement improved theft mitigation efforts. In the meantime we have to get aggressive clean-up of the homeless situation at 4500 Laurel Cyn under the freeway in the few days since I last emailed you and a week since first emailing Captain Valenzuela about the return of the homeless at this location we now have a small encampment on the opposite side (eastside) of Laurel Cyn under the freeway but will only get bigger if nothing is done and its not frequently monitored. We need your folks to be vigilant on this issue until they get the message its best to move along and wont be tolerated near the school and not on Ventura Blvd. I am hoping to try and reschedule my travel plans for Chief Moore's Town hall but may not be possible. Studio City is being overrun and really needs more resources to help with the monitoring and enforcement of this homeless situation which is a serious threat to the safety and health of the community. It also doesn't help the flow of traffic when folks stop to look and take photos at a very busy access point to the freeway where congestion is already heavy and the intersection is routinely blocked. Please send contact info for Sgt Chase as well I don't have it.

Thanks again!

Following up on homeless encampment at 4500 block of Laurel Cyn near Campbell Hall under her 101 freeway on the west side of Laurel Cyn. This is the same homeless encampment that I reported last month and took about 2 weeks to get cleaned up and is already back with the same folks growing in size each day as they set up "home" again. Like graffiti this is not a "*one and done*" your department has to be vigilant and committed to this issue and recognize the community decay and crime it helps drive. We have cleaned up over 100,000 incidents of graffiti in the area over the past 30 years because we are vigilant. As a result we have kept the area relatively cleaner than most but it takes considerable effort. We are doing our best to get the community out to Chief Moore's Town Hall with Krekorian and hope this will be an issue that is brought up.

In the meantime please get the area cleaned up and stay vigilant do your best to advise these folks the area residents will not permit it and will keep reporting these encampments big and small. Chief Moore asked for a plan in response to my original December Email is there one? I don't think officers can simply ignore these sites when they drive by them daily. It seems if we don't report them nothing gets done. Another encampment at 11400 Riverside Dr under the 170 freeway is an area that students have to walk going to the various schools. Area stakeholders like myself refuse to give up and do nothing.

Don, FYI I followed up with retail management and leadership at Sephora (Gregg Ardizone) and Urban outfitter (Trish Donnelly) they are willing to try and do their part to help the community concerns as they need community support for their operations. However, they won't have their employees go to court on company time or put them in harms way. What exactly can they do to help?

to Craig, Donald, Kris, Shawn

Some pics attached it always starts out with a small few and grows larger because it's not addressed early.

Thanks Craig better to deal with it while it's a small few before it grows to a larger encampment which is what happened last month before they cleaned it up originally. Vigilance is needed to keep them from returning its much like graffiti which we work tirelessly on before they get the message it will not be tolerated. Thanks again we will continue to monitor the area as well.

Donald Graham Thu, Dec 20, 2018, 11:10 AM

to me, Kris, Craig, Shawn

Glenn,

The OVB HOPE team has cleaned up the encampment that you identified. Thank you for providing that intel. We continue to be vigilant along VENTURA due to the proximity of The Boulevard to the wash and the 101 Freeway.

As we discussed at our meeting earlier in the year, we could really use help in convincing some of these corporate retailers that it is in their best interest to listen to us about operational changes to help them stem losses.

For instance, we have 2 trendy retailers, Sephora and Urban Outfitters, who have arranged their stores to be just havens for thieves and every time we talk to them it's always the same story, "Corporate won't go for that...:"

Any insights you Amy provide to us would be helpful. We tried to have a symposium here and, despite social media, flyers, emails and in person invitations, we only had 10 of the literally thousands of business interests in NHWD attend.

I look forward to our partnership in 2019!

Please see the below response from Dianna Gonzalez a Clerk from LASAN:

"Hi Danielle,

Thank you for the request. Gabriel & Leon are also the point of contact for CD 2.

This location was scheduled for this past Saturday 2/9 - but was not serviced due to the rain.

I am hopeful that CD 2 will reschedule this location on their next day of service which is 2/20. They are also scheduled for tomorrow, but locations have been posted therefore, we cannot add additional locations".

I also know that Sergeant Case and his team responded to this location recently and conducted Rapid Response where the majority of items were removed. We will continue to monitor.

Take Care,

Emada

forwarding email below we need help from your office to get this area cleaned up and allow students to travel to and from school safely. It bad enough that our city has turned into a portable toilet can we not make school zones a safe area? The mayors office needs to do more to ensure that our kids don't have to step over human waste and needles or be harassed on their way to and from school? Its getting worse not better because your administration permits it. LAPD is doing as much as they can but they need the support from your office to help. I have communicated with Chief Moore about this location many times which is 500' from Campbell Hall and not far from Carpenter Avenue Elementary. Politics and humanitarian issues aside residents have had enough especially considering nearly 1-7 shelter beds goes empty on most days.

Appreciate your help we need this area cleaned up immediately.

4533 Laurel Cyn, Studio City CA 91604 near Campbell Hall and Carpenter Avenue Elementary

<IMG_0209[1].jpg>

Absolutely ridiculous that nothing can be done to protect these kids and provide them with a safe passage too and from school (Campbell Hall, Carpenter) here in Studio City. They should not have to practically step in the street or walk single file to avoid harassment, human waste and needles when they travel to and from school. I hear from many parents that now choose to drive their kids to school to avoid this area. This location needs to be cleaned up and properly monitored and it is not. I will reach out to Chris Miller as well with Garcetti 's office. My last conversation with the mayors office was that school zones will be prioritized and they may even start to enforce the camping ban given 1 in 7 shelter beds routinely go unused. Even with the limitations and bad legislation these encampments violate so many other areas like the 60 gallon rule and daytime limits. There are things that can be done they just aren't unless folks like myself make a nuisance of ourselves.

I can be reached at 323-654-3742 for follow-up

Chief Moore,

I wanted to update you on the status of what's happening at Laurel Canyon/101 Freeway.

We've had personnel go to this location on at least four different occasions since Sunday. Monday was the only time there was a person there. The Senior Lead for the area made contact and is working on that. SLO Smith is following up with that homeless woman today. But, most of the problem is related to unattended grocery carts full of stuff, blankets and other items.

Sgt. Case advised me that they were off yesterday and that Sanitation has Rapid Response only doing spot cleaning this week and that clean up will happen Wednesday.

I've talked to the SLO and he is going to continue to keep very consistent tabs on what is happening there and addressing through what he can do and the use of HOPE.

Finally, the HOPE team has visited the location every week at the direction of Deputy Chief Pitcher in order to check for activity and take all enforcement and informal means necessary to address the problem.

Please let me know if you need anything else on this.

Thank you
Craig

Indeed. I thank you again for your willingness to partner with us to help our retail community harden their target so I can commit more NHWD resources to crime prevention. Detective Ron Lee will be reaching out to you shortly.

Two of my SLOs went by the encampment again today and the attention over the last few days has resulted in it's apparent abandonment. They requested sanitation to clean up the remains.

As you know, this problem has not only affected Studio City and VENTURA Blvd, but also much of our community. We are working at engaging every resource that will partner with us to alleviate the problem. We just met Tuesday with regional managers from LA County Dept of Mental Health, The Los Angeles Housing Services Authority, LA Family Housing and The San Fernando Valley Community Mental Health Center. We developed a communications protocol to ensure faster response from those entities into North Hollywood to give us the best chance of getting people off the street.

We will continue to leverage relationships and work in the field to mitigate this catastrophic situation as best as we can. Information from you and your constituents is always the best source of intel. A clean and fully leased VENTURA Boulevard is in all of our best interests. We continue to be committed to that end state goal.

Subject: Re:

Don, Great touching base with you today and covering the issues. Please send me the info on the retail burglaries and your recommendation and we will try and get the retailers in question including Home Depot to implement improved theft mitigation efforts. In the meantime we have to get aggressive clean-up of the homeless situation at 4500 Laurel Cyn under the freeway in the few days since I last emailed you and a week since first emailing Captain Valenzuela about the return of the homeless at this location we now have a small encampment on the opposite side (eastside) of Laurel Cyn under the freeway but will only get bigger if nothing is done and its not frequently monitored. We need your folks to be vigilant on this issue until they get the message its best to move along and wont be tolerated near the school and not on Ventura Blvd. I am hoping to try and reschedule my travel plans for Chief Moore's Town hall but may not be possible. Studio City is being overrun and really needs more resources to help with the monitoring and enforcement of this homeless situation which is a serious threat to the safety and health of the community. It also doesn't help the flow of traffic when folks stop to look and take photos at a very busy access point to the freeway where congestion is already heavy and the intersection is routinely blocked. Please send contact info for Sgt Chase as well I don't have it.

Thanks again!

Following up on homeless encampment at 4500 block of Laurel Cyn near Campbell Hall under her 101 freeway on the west side of Laurel Cyn. This is the same homeless encampment that I reported last month and took about 2 weeks to get cleaned up and is already back with the same folks growing in size each day as they set up "home" again. Like graffiti this is not a *"one and done"* your department has to be vigilant and committed to this issue and recognize the community decay and crime it helps drive. We have cleaned up over 100,000 incidents of graffiti in the area over the past 30 years because we are vigilant. As a result we have kept the area relatively cleaner than most but it takes considerable effort. We are doing our best to get the community out to Chief Moore's Town Hall with Krekorian and hope this will be an issue that is brought up.

In the meantime please get the area cleaned up and stay vigilant do your best to advise these folks the area residents will not permit it and will keep reporting these encampments big and small. Chief Moore asked for a plan in response to my original December Email is there one? I don't think officers can simply ignore these sites when they drive by them daily. It seems if we don't report them nothing gets done. Another encampment at 11400 Riverside Dr under the 170 freeway is an area that students have to walk going to the various schools. Area stakeholders like myself refuse to give up and do nothing.

Don, FYI I followed up with retail management and leadership at Sephora (Gregg Ardizone) and Urban outfitter (Trish Donnelly) they are willing to try and do their part to help the community concerns as they need community support for their operations. However, they won't have their employees go to court on company time or put them in harms way. What exactly can they do to help?

Agreed. And, as best as we can, we try to deal with, manage or remove in a lawful manner.

I'll work with our folks to take a look at this and ensure we do what we can.

Craig

Studio City Development [REDACTED] Privacy Sun, Jan 6, 6:55 PM (3 days ago)

to Craig, Donald, Kris, Shawn

Some pics attached it always starts out with a small few and grows larger because it's not addressed early.

Thanks Craig better to deal with it while it's a small few before it grows to a larger encampment which is what happened last month before they cleaned it up originally. Vigilance is needed to keep them from returning its much like graffiti which we work tirelessly on before they get the message it will not be tolerated. Thanks again we will continue to monitor the area as well.

Donald Graham Thu, Dec 20, 2018, 11:10 AM

to me, Kris, Craig, Shawn

Glenn,

The OVB HOPE team has cleaned up the encampment that you identified. Thank you for providing that intel. We continue to be vigilant along VENTURA due to the proximity of The Boulevard to the wash and the 101 Freeway.

As we discussed at our meeting earlier in the year, we could really use help in convincing some of these corporate retailers that it is in their best interest to listen to us about operational changes to help them stem losses.

For instance, we have 2 trendy retailers, Sephora and Urban Outfitters, who have arranged their stores to be just havens for thieves and every time we talk to them it's always the same story, "Corporate won't go for that..."

Any insights you Amy provide to us would be helpful. We tried to have a symposium here and, despite social media, flyers, emails and in person invitations, we only had 10 of the literally thousands of business interests in NHWD attend.

I look forward to our partnership in 2019!

Brian and Sgt. Padilla,

Meeting will occur onsite at Division 1 employee parking lot located at the corner of 6th St and Central Ave., LA this coming Monday the 11th at 11:30 am.

We will be meeting the Division Transportation Director and tree trimming contractor to discuss a plan for expediting the tree trimming, we will need law enforcement support to relocate the homeless during the tree trimming who are camped out under trees needing trimming.

As Jennifer eluded to below, we have been asked to expedite the trimming due the robbery, therefore, we will need to coordinate resources quickly.

Thanks in advance!

Todd Garner

Subject: For Monday-- Immediate Need
Importance: High

Brian and Sgt. Padilla:

We have an immediate need around Division 1 and 2. We need to immediately trim trees due to a robbery by the parking lots of an employee, however we need to coordinate with the city because adjacent to the trees are homeless encampments on city jurisdiction. WE will meet Monday on this issue and next steps if you can send a rep? Lena and Todd cc'ed here in are coordinating the efforts and the trimming and will have more information on meeting time if you have any preferences.

More broadly, I hope we can also identify how we will address divisions 1 and 2 in light of the clearing request.

Many thanks,
Jennifer

To: Mayor UHRC <uhrc@lacity.org>

Hello,

Can you please help move some RVs that are parked near some schools? One RV is located near St. Turibius and the other RV is located near San Pedro Elementary.

These schools are also located near the future Paloma ABH Site and moving these RVs would go a long in garnering support for the ABH project in the neighborhood.

Exact locations:
1201 E 16th St, 90021
1721 Trinity St, 90021

Both of these RVs are parked on streets that are marked red on the LAMC 85.02 map.

Hi Michael,

Yes, our HOPE HET was there this Monday, 2/4, with the HOPE officers. Looking back, I can see that our NELA and HOPE teams have been conducting outreach at this location at least since April – sometimes with LAPD, LASAN and/or LADOT. We have had mixed success with engagements at this location.

In early January, the City had a CSLA comprehensive clean-up there, for which we performed outreach in December. In May of last year, multiple RV's were towed from this location.

I am adding Matthew Tenchavez, our UHRC Manager, who can help coordinate any City services that are being requested at this location. He'll bring this up at UHRC tomorrow.

Thank you,

Subject: Re: Clover Street meth village now tapping power poles and hydrants

Once again we are absolutely furious after yet another fruitless conversation with Matthew over at former Councilman Jose Huizar's office regarding the "Clover St. Meth Village". As usual our concerns and frustrations are met with pat answers such as, "We will look into that" or "We will follow up on that" or "We are working on a solution" or "We are waiting to hear back from____", (fill in the blank with the name of any other ineffectual or worse yet, disempowered city department that is slowly kicking the political hot potato up or down the hall).

After OVER A YEAR OF CALLS AND EMAILS, we still haven't received any real help from the city that address actually stopping this problem on our street. There has been little progress AND NO LASTING RESULTS!

The RV encampment is still here. Piles of rotting garbage, tarps and tents are still blocking public access on the sidewalks.

More piles of human shit daily and a pervasive stench of urine. More needles. More drug deals. More screaming. More violence and fighting, (now with pipes, 2x4's, machetes, chains etc). More trespassing. More theft from our property and our tenant's cars. More people complaining. More 911 calls.

Now the power poles have been illegally tapped to distribute stolen power to the RV's and tents via a cobbled web of extension cords crossing the street and/or laying in water. What water isn't coming from the rain, is a result of the runoff from the fire hydrant that has been opened up to create a water manifold of garden hoses via a soda bottle jammed into it. We call LAFD Station 1 to come over and recap the fire hydrant so often now that they know us by name.

And even though we have purchased a motorized gate with a timer and a security key code entry, installed video surveillance cameras everywhere, put up official LAMC no trespassing signs, and doubled our outdoor lighting, it's not enough. The crazy meth heads living on our sidewalk still continue to trespass on our property, even so far as coming up the stairs into our offices and screaming at us. We are losing businesses because people are afraid to be here.

WHAT CAN BE DONE??

We have been asking for no parking signs, specifically, "no parking from 2-6am signs" for over a year now! That's it, parking signs!!!!

LAPD has written two letters to this effect on our behalf. The last one was hand delivered to Mathew by Senior Lead Officer Perez months ago. The HOPE unit in an act of ultimate futility comes to disperse this mess every few weeks, and essentially act as room service, only to watch it all come back within hours because there are no signs enabling them to enforce the already existing city code LAMC 85.02 that prevents vehicle dwelling on our street.

When we ask Mathew if anyone over at the city other than Police and Fire are actually doing their jobs, we get canned answers meant to appease and deflect.

Matthew, just now, said they: "have to do another study".

Add the attached photos to the pile of complaints.

Attached are photos of today's RV's, 3 of them, expanding tent city. a new car with no plates, and the silver SUV belonging to the trespasser we filed charges against. Multiple tenants have seen the chain wielding trespasser in one of the tents. I also checked our 311 app, and all of the trash removal tickets have

been cancelled, see attached picture of the mountain of trash. Ironically, the graffiti removal ticket is still open, even though we have a nice new coat of white paint on our black fence.

Please send the HOPE unit back again.
thanks,
Christine

On Thu, Aug 16, 2018 at 12:55 PM BigArt Labs [Privacy](#) wrote:

ATTN: Call Center with LACity.org:

The pending My311 tickets are:

SR1-1114123778 for Graffiti Removal and SR#1-1063270520 for Homeless Encampment. Both at 651 Clover Street, Los Angeles, 90031.

Though several police cars and a DOT Trash truck came down yesterday, as of this morning there are still piles of trash and items for bulky item pickup, and the area by the Graffiti has a tent, barrels and boxes of trash and rubbish (photos attached), and on the other side of the street is a 10x20 shelter surrounded by trash and other tents next to the RV's.

Please schedule a pickup as soon as possible.

-Christine Nash

Hello,

I emailing you in hope's you can help or at least lead me to the right person. I have contacted the police dozens oof time. The councilman office twice. I have called and used the online services on 311 bUT no action has been done. I have homelse's encampment that has gotten worse . There is winnebago white with blue that now has his license covered that has not moved for over 4 months. I have picture from the time it got there till now. He is attracting the homeless and something illegal must be going on cause the homeless have stranget interactions with the owner of the motor vehicle daily and it's quick. I am asking for help on do not feel safe and I have used every outlet to get help. The homeless are now on the the sidewalk. .using the restroom, littering, drugs. .etc. I am not complaining about all the motor vehicle but just this one. This is completely illegal. I look forward to hearing from you please.

Regards,
Mino

Brian:

We have been in discussions with Sgt. Padilla, whom I will include here in, but I also want to reach out to you directly related to Divisions 1 and 2 which are bus divisions around the skid row area. These locations have tremendous employee interface, however, the sidewalks have been overtaken by the homeless. Is there any way that we can expedite a clean-up at these location sites? Our employees are becoming very frustrated that the encampments and waste have been there for years and fear for their health and safety. Metro would otherwise be willing to clean these locations, but we are constrained as they are not our property.

Thank you,

Jennifer

Thanks, Emada. Those seem like reasonable places to start--more frequent visits from SAN; distributing and/or installing sharps receptacles; expanded outreach and education. Do we need to work with the Council Office to reach out to the schools or any parent groups?

Brian

On Mon, Feb 4, 2019 at 9:50 AM Emada Tingirides <31546@lapd.online> wrote:

Thank You for the information Marco. Brian and Matthew please see the below information. Do you think that we could discuss with Sanitation regular checks by them in the immediate areas of the three schools and the park to identify hazardous materials, or possibly obtain Sharps containers? Matthew, can we have your teams conduct more Outreach and perhaps suggest that the unsheltered individuals move to a location further away from the schools and also do another round of educating them about blocking the sidewalk especially before and after school?

Please let me know your thoughts and suggestions,

Take Care,

Emada

Subject: Citizens asking for help in Schrader Zones

Hey Lt,

I received some troubling information from a Acting SLO, and a Patrol Officer about Carlos / Tamarind, & Schrader Zone. They were told that the preschool located on 1781 La Baig has been having problems with

the homeless. Parents are afraid to walk their children to and from school due to copious amounts of urine, feces, drug paraphernalia, and person's lying on the sidewalk throughout the day. I was informed by the Acting SLO that the school has now lost funding due to decreased enrollment caused by the homeless. The homeless are congregating near the Kindergarten Facility and have grown exponentially. Trash and debris are now in the street and the citizens are begging for help.

In addition we have Selma Ave between Cherokee Av & Schrader Bl (Schrader Zone). There is currently 3 schools in a one block radius from the Bridge Home. The Acting SLO informed me that some of the parents from the Elementary schools no longer utilize the sidewalks as much, due to being afraid of the homeless. There are a few encampments just east and west of Selma Elementary. There are several homeless individuals who occupy Selma Park on a daily basis from sunset to sunrise. Parents and Children no longer utilize the park due to bulky items and hazards such as; urine, feces, and drug paraphernalia currently on the playground.

Is there any way we can help?

Respectfully,

Police Officer II Ramirez, Marco #40604

One point of clarification: while many of you were not familiar with the daily UHRC emails, these alerts are already sent to Outreach Coordinators daily for dissemination to their teams. Please let me know if you do not wish to receive these emails. The next one to go out will be Monday morning. At present, the UHRC is closed over the weekend, except for weekends like this one when we will be on call because of the rain / inclement weather.

Have a great weekend!

Thanks.

Good morning,

Thank you, again, for participating in this week's Unified Homelessness Response Center (UHRC) briefing and tour. Attached please find a copy of the PowerPoint slide deck that was presented on Wednesday. A copy of the sign-in sheet is also attached. Our office thought it was a great first step toward more open and regular communication and dialogue between the Mayor's Office, the UHRC, and CES leads across the City about the City's street-based response to homelessness.

Two action items that we're discussed:

- The Mayor's Office will schedule "one-off" meetings with each individual CES leads to discuss circumstances and issues specific to their SPA, including opportunities for greater collaboration and partnership. We'd still like to convene regular meetings with the full group, perhaps quarterly if it makes sense, to ensure lines of communication stay open. Stay tuned.
- LAHSA proposed using 311 homeless encampment cleanup requests as opportunities to share information between and among HET outreach workers and CES-led or E6 teams.

As was mentioned at the meeting, the UHRC sends out daily emails with information about that day's scheduled CSLA comprehensive cleanups and rapid response / HOPE Team locations. We'd like to include you all on those emails, at least for an initial trial period. We believe this information will be helpful for you and your outreach workers. **Unless you specifically tell me you do not want to receive these emails, I will include everyone on this email chain on the distribution list.**

Finally, I want to reiterate that the UHRC is a resource for you and your staff. If you have ANY questions about City operations or department strategies, programs, plans, resources, etc. please do not hesitate to contact the UHRC.

UHRC Contact Information:

Phone: 213-484-4855

E-mail: UHRC@lacity.org

Please let me know if you have any questions.

Thanks again!

Hello Brian and Emada,

I hope all is well. I wanted to make sure you received our tips on how SALUS can support you during the rains (please see below). Please do not hesitate to reach out if you have any questions or require support.

Dear SALUS Users,

Here are 5 ways SALUS can help you prepare for and manage rain-related impacts today and throughout the weekend:

1. **Add the rain-related data in your SALUS Map Tool** - Use the Add Data Widget and search for "Rain". ([User Guide](#), p. 7) You'll find real-time data related to Precipitation; Weather Watches, Warnings and Advisories; Stream Gauges; and more. You will also find the USGS 2018 Post-Fire Debris Flow data. Check your Add Data widget frequently, as new data may be available throughout the next several days.
2. **Analyze and Identify Impacted Populations and Critical Infrastructure** - Use the Situational Awareness Widget to analyze areas with high precipitation, risk of debris flow, and weather warnings. ([User Guide](#), Page 7)
3. **Map road closures, deployed resources, and other plans** - Use the Event Editor to add symbols and corresponding data to your map. ([User Guide](#), p. 4)
4. **Change your basemap** - Different basemaps can help you visualize and communicate your plans. ([User Guide](#), p. 13)
5. **Share your maps** - Ask your SALUS Administrator to filter and share your maps using the Sharing Wizard. ([SALUS Sharing Wizard User Guide](#))

Questions? Email techsupport@hsacouncil.org or call (310) 984-3684.

Stay dry!

-SALUS Team

Thank you so much Brian! Here are direct locations of Divisions 1 & 2—site information and photographs. Please let us know how we can help the City along in any clean up and enforcement efforts where appropriate.

Thank you,
Jennifer

- Division 1 Employee Parking Lot - 1130 E 6th St. LA, CA: Located at 6th
 - Identified October of 2018
 - Encampments located on sidewalks adjacent to employee parking
 - Safety & public health issue, reported by division personnel
 - Estimated number of individuals: 25-35

- Division 1 Bus Facility – 1130 E 6th St. LA, CA: Located on Industrial St
 - Identified March of 2016
 - Encampment located on Industrial Street sidewalk outside Division
 - Safety & public health issue, discovered during routine site inspection
 - Estimated number of individuals: 3-6

- Division 2 Bus Facility – 720 E 15th St. LA, CA: Located at Griffith Ave/E 1
 - Identified October of 2017
 - Encampment located on 15th Street sidewalk outside Division perimeter
 - Safety & public health issue, discovered during routine site inspection
 - Estimated number of individuals: 4-6

Hi,

A friendly reminder about tomorrow morning's Unified Homelessness Response Center (UHRC) briefing and tour. The meeting will begin at 9:30 a.m.

The UHRC is located at 500 E. Temple Street, inside the City's Emergency Operations Center. Rooftop parking is available in the structure adjacent to the EOC. Please print and display the attached parking pass on your vehicle's dashboard.

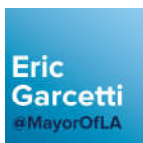

Call or text my cell phone if you have any last-minute changes to your availability or problems finding the EOC or UHRC. My cell phone number is: [Privacy].

Look forward to seeing everyone tomorrow!

Thanks.

Subject: Homeless encampments on Del Rey creeks (Ballona Creek, Centinela Creek, Sepulveda Channel)
To: <greg.good@lacity.org>

Good morning, Greg.

I enjoyed speaking with you at the Homeless Count orientation last night. Here is a recap of the Ballona Creek issue that we discussed:

Exempt: Investigatory residents along the bike path (mainly the Ballona Neighborhood Watch, about 250 homes between the bike path and Braddock Drive, west of Centinela) began meeting to talk about the problems created by the homeless living along Ballona Creek and in the Ballona Wetlands Ecological Reserve. The first step was to clean out the encampment under the Centinela Avenue bridge. Senior Lead Officer Javier Ramirez worked with other agencies, posted notices and completed the cleanout on October 1, 2017. John Lindsay and Sharon Blunk have organized meetings about once a month since then, and now they have a list of contacts at almost two dozen Federal, State, County, City and joint powers authorities that are involved with Ballona Creek. The next meeting probably will be on Tuesday, February 5, at 7:30 a.m. at the McConnell Avenue entrance to the bike path. LAHSA usually sends at least one representative, and their team is in Del Rey about twice a week. Caltrans did an extensive (at least five working days) cleanout along the 90 freeway between Mesmer Avenue and Inglewood Blvd., and they continue to work on different sections of the 90 freeway. California Department of Fish and Wildlife would like to remove the homeless from the Ballona Creek Ecological Reserve, but at least one worker was stuck by a needle left in the detritus of a camp, so they have had to dial back their efforts. In our view, the state wetlands “restoration” money should be available to help keep the reserve lands clean, but the money may be shifted to other projects while the Ballona draft environmental impact report is still pending (four years and counting...).

As I mentioned to you, fire is a huge concern. I live one block from you, and we have had five fires in two years on the embankments of the 90 freeway at Inglewood Blvd. where it crosses Centinela Creek. There have been at least two major fires near the 90 Freeway offramp at Culver Blvd. as well, and we have been told to call 911 if we see any fires in homeless encampments. Unfortunately, when fires are seen, one must be able to give a street address to the Fire Department dispatchers, and unlike Culver City, we do not have street addresses marked on the bike path. The Neighborhood Watch group has seen at least two instances of a fire truck driving up and down, looking for a location along Ballona Creek. In one case, the LAFD battalion chief was standing with the group when it happened. We have been trying for two years to get location markers on the Ballona Creek Bike Path. Matt Suska, who was the Bicycle Path Coordinator for the County Department of Public Works, attended one of the meetings where that was discussed, but I just saw that he changed jobs and now works for the mayor.

The Los Angeles Police Department does most of the law enforcement along the bike path, but we have been told that the new Chief of Police wants to disband many of the special units so more officers can be out on patrol. We want to keep the “Parole and Compliance Unit” because they are the ones who check to see if there are warrants out when homeless encampments are cleaned out. The homeless have been getting more aggressive, and our police officers are frustrated because they are spending 60 - 70% of their time on homeless issues. Frankly, the residents do not understand why the homeless are allowed to cut fences and stay on public property that is clearly marked “No Trespassing.”

To give you an idea of the jurisdictional problems along Ballona Creek, I attach three maps that we received this month from the L.A. County Department of Public Works. The “Private Property” on Milton Street at Centinela Avenue is now the Milton Street Park, which is owned

by the Baldwin Hills Recreation and Conservation Authority, maintained by the Mountains Recreation and Conservation Authority and patrolled by the LAPD. Although the park has been “open” since February 6, 2016, it never got a permanent certificate of occupancy. Originally, Army Corps of Engineers said there could be no trees in the park because they might damage the levee, but then MRCA planted 18 sycamore trees that were not on the plans, and the issue of levee safety still has not been addressed.

This is probably more information than you wanted, but it explains why dealing with the homeless along the creeks is so challenging.

Best regards,

Good afternoon everyone,

Attached are some before/after photos of Lighthouse and Pacific. This can be marked as 100% complete on the UHRC tracker (if not already done so).

Metrics:

2 encampments processed

1,000lbs trash/debris/bulkies removed

No hazardous waste found

Subject: Re: Fw: Venice Locations

Thanks so much for this everyone! Here's what my Emergency Response (ER) partner Adam Smith and I observed today at each address provided (note - for today's purposes we were on patrol for active leaks/discharges & health hazards only):

- 1) 1216 E Rose Ave 90291 & parameter of Penmar Park - WPD observed several parked RVs but none leaking
- 2) 2488 S Coolidge Ave 90064 - WPD observed two parked RVs, neither leaking
- 3) 1408 S Linden Ave 90291 - no porta potty found by WPD; active construction site nearby (Danielle, if this was an AMS Service Request this can be closed out)
- 4) 685 E Westminster Ave 90291 - no RV found by WPD (this SR can be closed out in AMS if that was the source)
- 5) 2005 S Lincoln Blvd 90291 - WPD observed a beige and blue (not green) parked RV on Venezia Ave near address; RV not leaking

If any of you get notified by citizens, businesses, LAPD Officers or other concerned parties regarding any type of non-encampment-related illegal dumps, active sewage (or other) discharges, abandoned hazardous waste, syringes, etc - especially chronic places - feel free to let me or anyone in WPD know about it and we will dispatch an ER team to investigate as soon as possible. In addition to 311, anyone at UHRC can also feel free to submit these types of complaints via the lasan enforcement email at lasan.enforcement@lacity.org :)

Sincerely,
Carolyn Cook

Hello all,

I spoke with Brian Buchner (cc'd on here) and our office will look into the following:

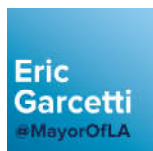

1. LAPD Presence- Fixed Post
2. Physical Alterations Metro may be able to do

In the meantime, Ariel and I briefly discussed the idea of having a community meeting where you and the rest of the tenants and businesses in the surrounding area can meet Captain Vargas, Senior Lead Officer Flores and a Metro representative. The purpose of the meeting is for you to directly hear what these entities are doing to ensure your safety in the area, what you see on a daily basis and then come to a workable solution.

Let me know your thoughts and I look forward to working with you.

Thank you!

Warmest regards,

On Sun, Jan 6, 2019 at 8:24 AM Ariel Gordon Maffei [Privacy] wrote:

Hi Angie

Thank you for your quick response and attention. I'm closing in on 10 years of my business and for the whole tenure of my company I've been proud to make all of my jewelry in the DTLA jewelry district. But the number of violent transients has reach a point where I feel afraid for myself and my staff to walk the district to conduct our business safely. I'd love to meet with you and a fellow jewelry designer Maya Brenner so we can explain to you what we've encountered and witnessed (as a point of fact Maya recently participated in the Mayor's LA original campaign <https://laoriginal.com/pages/maya-brenner>). Both of us have had our work impacted by the violence. Both of us have some frightening things we've experienced and feel afraid and impotent and frustrated. She had to close her office after one of her employees was assaulted for the second time by the same man during the week before Christmas (a difficult thing for a jewelry business) and she received very little support from the LAPD. I saw a woman being assaulted by the man who was later caught on tape being pushed under the truck (I was literally telling the LAPD to go apprehend him when the man was being pushed under the truck but the cop had no sense of urgency). I came to find out my door man had been calling the LAPD about this man for 3 months and no one ever came out to investigate. Both of our staffs are shoved, spit upon, yelled at, and harassed daily. After talking to a few LAPD detectives, they all seem to say that they are underwater and they don't see an end in sight without some top down assistance. Things have reached a boiling point and LA is under siege. They say that a large part of the violence is from out of state violent transients who have been given one way bus tickets to CA. One of them recommended I hire armed security which I feel I shouldn't have to do just to have my staff walk the 3 blocks down Hill St to run our errands.

I'd very much appreciate if you could make some time to come to my office and walk around the neighborhood so you can witness what we are talking about and help us find a solution.

I currently live in the Bay Area but commute to LA a few times a month. I have availability on the following days : 1/10 before noon, 1/16, 1/17. Let me know if any of those days work for you. My address is below.

If you'd like to discuss things first I'm also happy to do that. My cell is [Privacy].

Thank you

wrote:

Hi Greg,

Happy New Year.

Can you please point me to the right person in the Mayor's office for the following and perhaps forward this email to her/him?

A young friend of mine, Ariel Gordon, has a jewelry manufacturing business downtown. She uses only local suppliers, which means her staff must frequently walk around the jewelry district to meet with suppliers. She and most of her staff are young women. Several have had bad encounters with particularly rough homeless people often with disappointing LAPD response. I've put her in touch with Central Division, and she had what seemed a very productive meeting with a Lieutenant there. Only the problem seems to be getting worse. The Lieutenant told Ariel that downtown is inundated with homeless people from out of state whose home states bought them one-way tickets to Los Angeles and LAPD is overwhelmed.

Alas, things are getting worse, and Ariel is justifiably worried about her employees' safety.

If other jurisdictions are shipping their difficult homeless people to LA, surely Mayor Garcetti will want to do something.

So I'd be grateful if you direct this email to the right person in your office and s/he would respond directly to Ariel (see info below) or to me.

On Jan 8, 2019, at 8:54 PM, Brian Buchner <brian.buchner@lacity.org> wrote:

Hi Team UHRC,

Here are two locations for us to address:

1) Hampton and Rose in Venice, in front of and around St. Joseph's Center—I spoke with the Executive Director of SJC today and she told me they're feeling frustrated at the number and size of the encampments around their facility, although they're mostly focused on the overwhelming amount of trash. Can we do a spot cleaning there ASAP and find ways to visit the site regularly to keep the trash and encampments at a minimum. Attaching images they took today. There are some clear ADA issues that can immediately be addressed.

2) Venice and Globe—the Council Office has asked that we revisit this area, including regularly delivering a roll-away bin to the location, beginning next week. Back when the UHRC focused on this area, SAN delivered a bin there for a 24-hour period each week. I'd like to start doing that again. The Council Office expressed the location got much worse when we stopped intensely focusing on it. I think we can and should get more enforcement support from Pacific; according to Hannah at CD11 they don't feel like they've gotten great support from the SLOs or Division more generally at that location. In many other ways they're very happy with Pacific and Captain Setzer.

Happy to discuss either or both of these requests.

Thanks.

Brian

christinapascucci You guys are amazing! So many have reached out to want to help Sergio. He's lived by the LA river for 20 years. Yesterday, Sergio was warning the other homeless people that the river was rising. Would he want to live in a home? He said, of course! But he feels an obligation to protect the others who have also chosen to live here.

There are going to be downpours all week. If anyone wants to contribute toward bringing supplies, DM me! Maybe we

Good morning UHRC,

I hope this email finds you well.

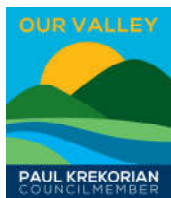

The CD2 field office and LAPD HOPE Officers have diligently worked with LAHSA and any departments to remedy the situation at this location. Please see the below photos we received from a resident on this street from this weekend.

This is 6700 Satsuma Ave, 91605, just South of Vanowen St.

I have CC'ed the HOPE Officers, and the field deputy in our office, Lorraine Diaz. Please feel free to reach out to our office if you are able to help in any way. We've had numerous clean ups, but it seems the situation has only continued to build. The individuals have tarped off a large section of the street/sidewalk now.

Thank you,

Brian,

Hello and Happy New Year. Sorry for the delayed response, I've been on vacation with intermittent access to emails.

I'm happy to read that the City does not support "storing items in the open." It seems that there was some miscommunication along the way with the efforts to address the Nadeau encampment. Before leaving for vacation a couple of weeks ago I was able to confirm that the ACTA will have storage containers at the ready tomorrow at Nadeau.

I am our contact for this issue and the ACTA contact is Manny Hernandez. Manny's emails address is [REDACTED] Privacy He is very accessible and starts his work day at 6AM. Let me know if you need additional information from me or if I can assist further in any way.

Michael

Subject: Re: Alameda Corridor Transit Authority Encampments

Thanks, Christina, for looping us in.

Michael, that is an incorrect understanding or interpretation of the City's policies and procedures under LAMC 56.11. We do not store people's property "on site in the open" under any circumstances. We have dedicated storage sites across the City where we store all impounded property. When an individual needs access to their property, we deliver it directly to them within the hour no matter where in the City they are.

Please let us know who from your office and ACTA we should work with to address the encampments at Nadeau on January 7th. Coordination on the City side will occur through the Unified Homelessness Response Center.

Thanks.

Brian

Christina/Meg,

Hello, hope this finds you well (sorry for the long email). On November 21, 2017, the Board of Supervisors approved a motion instructing the CEO, LAHSA, and other stakeholders to develop a plan with the Alameda Corridor Transit Authority (ACTA) to develop a plan to address homeless encampments along the Corridor; attached is the Board report developed by our Office based on planning efforts with the aforementioned entities. This email serves to provide you with information on work done to date to address the encampments and to share some recent developments:

For the past 13 months Measure H funded outreach teams have conducted outreach at the various encampments along the Corridor, the most impacted and populated location is the Nadeau St. encampment. In addition to the engagement by the outreach teams the LASD Homeless Outreach Services Team (HOST) has also engaged our homeless neighbors living at said encampments, the HOST has mostly focused on Nadeau.

The teams have had a lot of success over the 13 months connecting folks to services, benefits, shelter, housing, family reunification, etc. Four of the 5 encampments (see map attached to Board report) no longer exist, however the Nadeau location continues to be inhabited. Most of the original dwellers at Nadeau are no longer living at the location, but a new group of inhabitants are now at the location. In November, I presented to the ACTA Board informing them of what's been accomplished to date and I submitted a recommendation to allow for more intensive engagement for another 6 to 8 weeks at the Nadeau site, which the Board agreed to.

It is not the practice of Measure H funded teams to "shuffle" our homeless neighbors from one location to another, but instead to work with them where they are. That said, because of the dangerous circumstances at Nadeau given the proximity to the railroad tracks it was recently decided that the Nadeau site must be closed. A clean up at the Nadeau site is scheduled for January 7th and at that time the ACTA will begin erecting a fence that cannot be breached to permanently close the site. I received a report yesterday informing me that there are 20 people at the Nadeau site remaining and the hope is that those individuals will accept services/shelter prior to January 7th. The plan is for intensive outreach and engagement to continue through January 7th and outreach teams as well as HOST to be on site on January 7th.

This week, on Monday, I was informed by the ACTA that the Nadeau site is City of LA property and that the ACTA must follow City Ordinance 56.11 in addressing the encampment (see attached email thread which begins with a December 4th email from the City Attorney to the ACTA). We, myself, Lt. Deedrick, and Measure H outreach supervisors, were informed that the plan under 56.11 would call for tearing down all structures and leaving them on the site for 90 days, i.e., store them on site in the open, which we feel is somewhat inhuman and could lead to a lawsuit.

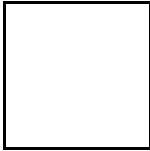

Lt. Deedrick, HOST lead, and I informed the ACTA that if this is the plan Measure H funded outreach teams and the HOST cannot be on site on January 7th. As of Monday, Lt. Deedrick and I have had two conversations with ACTA staff and the ACTA staff subsequently informed their executive director of our need to pull back if the plan is store items on site, in the open. ACTA has since agreed to change the plan back to the original agreement, i.e., bring in storage units to store all personal items for up to 90 days that cannot be moved on January 7th. In addition, Lt. Deedrick and his team have been talking to the homeless persons on site at Nadeau this week to identify personal items versus trash and they've taken record of said conversations. This record will allow the cleaning crew to easily separate trash from personal items on January 7th.

Again, I apologize for the long email but Phil and I felt it was important to share all this information with you in the event you were not aware of what's been happening at Nadeau and what will take place over the next couple of weeks. Let me know if you have any questions or if you'd like to discuss this matter.

Thanks,

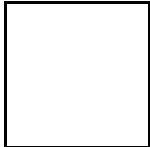

Michael

Good morning UHRC,

I hope this email finds you well.

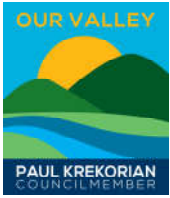

The CD2 field office and LAPD HOPE Officers have diligently worked with LAHSA and any departments to remedy the situation at this location. Please see the below photos we received from a resident on this street from this weekend.

This is 6700 Satsuma Ave, 91605, just South of Vanowen St.

I have CC'ed the HOPE Officers, and the field deputy in our office, Lorraine Diaz. Please feel free to reach out to our office if you are able to help in any way. We've had numerous clean ups, but it seems the situation has only continued to build. The individuals have tarped off a large section of the street/sidewalk now.

Thank you,

Subject: Notes from CSLA @ Selma Ave. Conference Call, 1/4
Attachments: image1.png

Thanks for participating in today's call to discuss plans for a scheduled CSLA cleanup at Selma Ave. and Schrader Blvd. on 1/23. Participants on the call included: CD13, Mayor's Office, LAHSA, LASAN, BSS, LAPD, and the City Attorney's Office.

We discussed the following:

- CD13 has requested a full CSLA cleanup at Selma Ave. and Schrader Blvd. on Wednesday, 1/23.
- The CSLA cleanup will occur and be posted for a specific time on that day and not a range (e.g., between 9am and 12pm). Exact time TBD.
- The polygon for the cleanup will be prepared by LASAN no later than Monday, 1/7. The polygon will be approved and finalized at that time. LAHSA requested this information ASAP to include in outreach workers' messaging.
- LAHSA outreach workers will immediately begin messaging about the cleanup. LAHSA will coordinate with the E6 team to ensure the E6 team's messaging is consistent. (Note: the E6 team participates in CD13's regular Monday morning call.)
- LASAN will add one trash can to the southeast corner of Selma and Schrader and one trash can to the southwest corner of Selma and N. Las Palmas Ave. (two blocks west of Schrader). These trash cans, along with other new trash cans that were recently added to that area (see attached map), will be serviced by LASAN twice weekly to start.
- LASAN is confirming a 4-yard dumpster will be placed in the area of Selma and Schrader for at least one 24-hour period each week.
- The group agreed there will be regular spot cleanings at Selma and Schrader following the full cleanup on 1/23. These spot cleanings will be conducted by LASAN and supported by the LAPD's Hollywood CORE Unit as needed (force protection only).
- The Council Office agreed to explore placing a portable restroom and/or shower services at or near the location, and possibly at Blessed Sacrament. The Council Office and Mayor's Office will discuss the issue further, including with Blessed Sacrament.
- The West Bureau HOPE Team will continue its outreach and engagement efforts in the area (per the ABH protocols). The HOPE Team will not engage in enforcement activities in the area.

The group acknowledged the goal of the ABH protocols was to not conduct comprehensive cleanups in Focus Areas around ABH facilities during the 120-day period around the opening of an ABH facility, and that CSLA cleanups, while not the preferred option, remained a possibility as long as the UHRC Policy Group discussed and planned for such an event well in advance. Every partner on the call expressed comfort in the aforementioned plan for the scheduled CSLA cleanup on 1/23.

Finally, the group agreed all spot cleanings - and spot cleaning requests - will be coordinated directly through the UHRC.

Please let me know if I missed or misstated anything.

Thanks.

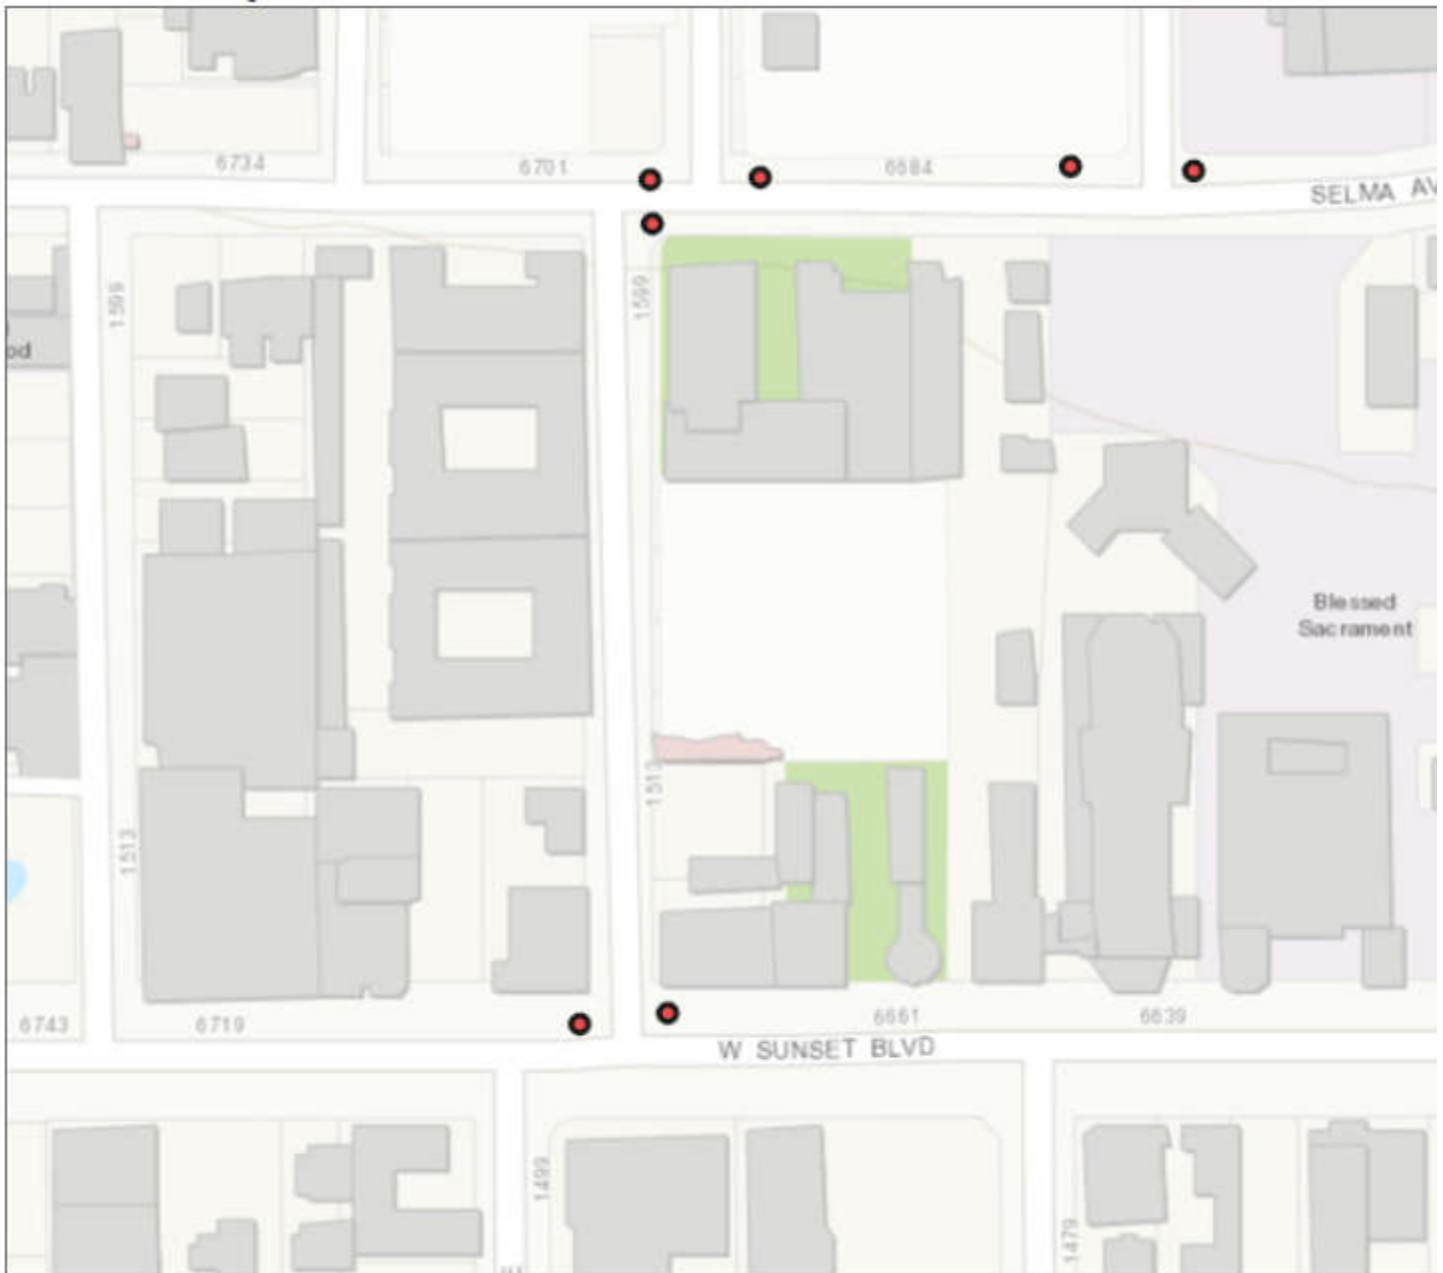

Brian

On Jan 3, 2019, at 4:30 PM, Emada Tingirides <31546@lapd.online> wrote:

Hi Brain,

Matthew I attended the Case Conference Meeting at El Pueblo today. Because of the cold weather, breakfast was served indoors. Two female clients that reside there got into a verbal dispute. During their dispute a male client became involved and attempted to "keep the peace". An additional male client got into a verbal dispute with the male client that came to render aid. Both males armed themselves with a metal pipe and a cane and began arguing and threatening each other verbally. The El Pueblo Overtime officers were directly across from the location, observed the incident and responded within seconds. There was not a physical confrontation due to the police presence and their ability to gain cooperation from both parties along with the staff.

Both clients were discharged from the shelter but placed on the interest list for future consideration. During the meeting it was discussed that individuals living in the shelter have been on edge, feel unsafe and that there has been a lot of tension at the site. Asha Raab (Clinical therapist) from the Peoples Concern discussed this tension and expressed the concerns about safety with many of their clients. Asha advised that their employees would be getting Trauma Informed Conflict Resolution training and the Director (Daniel) advised that they would be having a Residents meeting to discuss the incident and reassure the clients that live there.

There are currently 67 individuals on the interest list. Please let me know if you have any questions.

Take Care,

Emada

Subject: Lighthouse Bridge

Good Morning,

I want to bring to your attention again , the homeless encampment under both sides of the Lighthouse bridge. When I had Officer J. Robbins and his hope team come out in May of this year and clean both sides under the bridge of the debris and the residents it was a god send. This officer worked extremely hard to rid the problem that was occurring. This problem has risen again? Why this problem exists is because council will not budget any money towards fixing this problem. There was an offer of 25,000 but the cost of the project far exceeded this and there for the project was put on the " Will get to it later pile"? This bridge is in a dilapidated condition and yet no work to fix this problem?Thank you.

Sincerely,
Rick in the marina[Inline image]

Hi UHRC,

CD8 has requested the UHRC begin mapping encampments around the following priority zones in proximity to its bridge housing facility, which will be located at 5975 St. Andrew's Place. I'd like to begin ASAP after the Christmas holiday, on 12/26:

- St. Andrew's Park = 15-20 people, multiple encampments and RVs
- Vernon & 45th St. / Western = 10-20 people
- Vermont / Florence = alley way
- Broadway & Main, 99th & Century = large encampments

Thanks.

Brian

Heavy outreach. There's a strong chance most of the folks are vets so we can hook them up to housing or services with the VA. No protocols here. We have flexibility to attack the issue however we see fit, though it definitely should be outreach led (with LAHSA).

Brian

I have been directed to you by Chief Zabilski.

Briefly, we have a group of homeless people that are living inside a storm drain that is partially on city property with the remainder on Cal Trans/State property. The storm drain runs underground for roughly 300 feet. The fenced perimeter is in need of repair to secure the area from unlawful entry. The location is Olive St and Manchester Ave

We have responded to this location over the past year approximately twenty times for rubbish fires. Most recently, it has been noted that they are taking power illegally from a power pole at that location into the storm drain.

Major concerns: First; In the event of rain they will be in a location that could bring significant injury or death to people inside the storm drain. Second Due to the nature/location of the site rodent infestation is obvious; potentially leading to the spread of disease among the homeless as well as LAFD members. Third If they become ill or injured, due to the confined location we would have to upgrade to a confined space rescue, which by nature is a slow process due to procedural necessities that need to be in place as mandated by Cal OSHA before entry can be made to effect a rescue.

Due to the dynamics of the location we can be on scene from 30 minutes to as long as 2 hours to extinguish these fires. We have attempted to resolve the matter through The City of Los Angeles Public Works, who has mitigated the city part of the issue. However, our Cal Trans partners need to secure their property as it once was or there will be no end to this matter.

The contact for Cal Trans is Antonio Garcia Office: 213 620-2107 Cell: 213 400-7356

Thank you in Advance

Catherine and James,

The flat part of the 223rd location is getting done today by all the outside entities that fall within the RD. See attached email, they need LAPD to stand by for any resisting individuals, outreach has been conducted for weeks. We will have officers there today, could you please assist in getting officers to the location tomorrow to standby, the unit is short this DP. After this week, LA SAN will continue with the clean-up of the tunnel, (Harbor quality of life officers know the location) at the end of January, if we work together to get this location done please.

Hi Sarah,

Request for an CSLA clean-up in CD 15. Research on Navigate LA indicates area containing homeless encampments / unattended property, trash and debris located inside and

near a tunnel location south of 223rd Street and near 22300 Alameda Street. The tunnel area is located within the City of LA Boundary and abut to City of Carson's boundary. Once approved we will only clean the City's portion of the public right-of-way. We have confirmed that Sanitation WCSD does not have any storm drain easements in or around the tunnel area. Refer to survey conducted by WPD with LAPD South Bureau for additional information and photographs. Please utilize the Navigate LA information and survey when the Authorization gets generated.

Let us know if you have any questions or concerns.

Navigate LA:Tunnel located on City of LA public right-of-way. Color areas on the aerial view are public right-of-way areas, grey shaded areas are other private property parcels, Purple dotted line is the City of LA Boundary, also included in PDF attachment:

Hi Kwasi,

New request for storm drain channel clean-up.

Refer to attachment on a survey completed by WPD. The survey was a request from LAPD South Bureau regarding cleaning up homeless encampments, trash and debris located in open channel / storm drain near Alameda and 223rd Street, LA CA 90745. Research on Navigate LA identified the open channel belonging to City of LA. Would you confirm if this open channel is operated and maintained by Sanitation WCSD. Once confirmed, we will need to post "No Trespassing" signs, coordinate and schedule a clean-up in this area.

Hi Brian,

Thank You for the information. I believe this location may be 77th Street Division or potentially Southeast. Do you know if we are able to gain access easily to the location. In other words is feasible to have LAHSA Outreach Workers and HOPE Teams go into the location?

I will attempt to find out who the Arra Senior Lead Officers is and I have included our South Bureau HOPE Sergeant in this E Mail as well as Matthew from LAHSA.

Matthew are you able to check and see if your teams have been out to this location?

Brian, because this is partially Cal Trans and City can you assist us in coordinating with them to do an assessment of this location with LAPD, LASAN the Area SLO and our HOPE Team?

I am also open to other suggestions. We can have our HOPE do an initial assessment and photos and go from there as well.

Take Care,

Brian

I have been directed to you by Chief Zabalski.

Briefly, we have a group of homeless people that are living inside a storm drain that is partially on city property with the remainder on Cal Trans/State property. The storm drain runs underground for roughly 300 feet. The fenced perimeter is in need of repair to secure the area from unlawful entry. The location is Olive St and Manchester Ave

We have responded to this location over the past year approximately twenty times for rubbish fires. Most recently, it has been noted that they are taking power illegally from a power pole at that location into the storm drain.

Major concerns: First; In the event of rain they will be in a location that could bring significant injury or death to people inside the storm drain. Second Due to the nature/location of the site rodent infestation is obvious; potentially leading to the spread of disease among the homeless as well as LAFD members. Third If they become ill or injured, due to the confined location we would have to upgrade to a confined space rescue, which by nature is a slow process due to procedural necessities that need to be in place as mandated by Cal OSHA before entry can be made to effect a rescue.

Due to the dynamics of the location we can be on scene from 30 minutes to as long as 2 hours to extinguish these fires. We have attempted to resolve the matter through The City of Los Angeles Public Works, who has mitigated the city part of the issue. However, our Cal Trans partners need to secure their property as it once was or there will be no end to this matter.

The contact for Cal Trans is Antonio Garcia Office: 213 620-2107 Cell:

Subject: CD8 Bridge Housing Priority Zone(s)

Hi UHRC,

CD8 has requested the UHRC begin mapping encampments around the following priority zones in proximity to its bridge housing facility, which will be located at 5975 St. Andrew's Place. I'd like to begin ASAP after the Christmas holiday, on 12/26:

- St. Andrew's Park = 15-20 people, multiple encampments and RVs
- Vernon & 45th St. / Western = 10-20 people
- Vermont / Florence = alley way
- Broadway & Main, 99th & Century = large encampments

Thanks.

Brian

Hi Brian,

Please see the below string of E Mails regarding this location. The Central Senior Lead Officer has visited this location regularly and continues to do so. I spoke with him last week about this location and obtained the attached photos. LAHSA has conducted outreach at this location and I have requested them to do so again and regularly. Sergeant Siguenas and the OCB HOPE Team has been out to this location and as of yesterday he suggests that a CSLA be conducted here. I am open to additional ideas and strategies to address this concern (additional Trash Cans, Daily Outreach by LAHSA, Rapid Response by OCB HOPE).

Take Care,

Emada

Hi Mario,

Thank you so very much for the conversation and information. I have included Sergeant Siguenas of the OCB HOPE Team in this E Mail as well as Matthew Tenechavez from LAHSA and the UHRC Manager for LAHSA.

Art, please see the attached photos, I believe this can be addressed in a Ralid Respknse but you would know better than me. This location is Broadway and 1st Street.

Matthew, I know your teams have responded and conducted outreach at this location, is it possible they can revisit or if they have recently it's much appreciated.

Thank You all in Advance,

Emada

Hi Edna,

Yes, we will send outreach to the location and have SAN install an additional trash can.

Thanks.

Brian

On Tue, Dec 18, 2018 at 1:21 PM Edna Degollado <edna.degollado@lacity.org> wrote:
Hello,

One of our office's top priorities is to address the Homeless Encampment located on 1st St between Broadway and Spring. In October we scheduled CSLA clean-up for this location, but this had very little impact . I also previously requested sending out outreach workers to let the folks there know about 56.11 and their tents being put away by 6am. On occasion, I've seen LAPD on foot and on horse go out and speak with these folks, but there's been little progress in relocating folks into housing or shelter.

Is there any way an outreach team can be dedicated to this location and pay them a visit periodically (once every 2 weeks)? Can an extra trash bin be placed here? Every day the trash near the bus stop is overflowing.

Thank you,
Edna

Good afternoon Insp Simms and HOPE Team,

Hope you're all well!

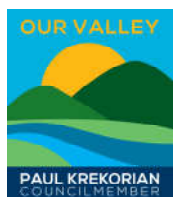

Insp Simms: There are many obstructions on Satsuma Ave. The individuals living in their vehicles here are using the entire street to break down bicycles (photos attached). Would you mind inspecting the area?

HOPE Team: This location is prioritized for clean up, but the situation seems to be building here. Have you been to this location recently?

If there's anything our office can do to help relieve the situation for the residents on Satsuma Ave.

Thank you!

Thanks again for a very productive meeting yesterday. I wanted to send a quick follow-up email to provide a forum for sharing the requested information and to solidify Caltrans' commitment to join / support the City's Unified Homelessness Response Center (UHRC) to ensure greater cooperation and communication, particularly on current joint cleanup operations.

Attached please find a copy of two sets of protocols guiding the City's response to homeless encampment cleanups in the public right of way (LA Municipal Code 56.11) and on Recreation and Parks properties (LA Municipal Code 63.44). We will send copies of our encampment cleanup reports for you to review shortly.

Please send a copy of the Caltrans protocols for resolving / cleaning homeless encampments at your earliest convenience.

We will convene the next meeting in early January 2019. We will continue discussions about the UHRC and improved coordination on current cleanup efforts and engage in further discussion of a blanket permit to allow the City to conduct cleanup operations on Caltrans property.

Thanks.

Brian

Subject: San Francisco Site Visit, 12/17

Good morning,

If you are receiving this email, then you have been confirmed to attend Monday's site visit to San Francisco. The San Francisco Police Department is still finalizing the itinerary; I will send all of you the final version as soon as I receive it.

What I can share is the day will begin sharply at 8am at the SF Healthy Streets Operation Center (HSOC), located at 1011 Turk St, SF, CA 94102 (inside the Emergency Management Bldg.). The day will include meetings with various officials inside the HSOC and from other departments / City entities, as well as field observations of outreach, engagement, and cleanups.

Dress is business casual -- jeans are perfectly fine (I'll be in jeans). Because we'll be outside at times, please come prepared for Bay Area weather. Right now the 10-day forecast says partly cloudy with a high of 58 / low 49.

Most of you already have my cell phone #, but here it is again (also in my email signature):

Good morning Amy

I personally went to conduct outreach to the location listed below and encountered one white angry male individual with long blond beard, alot of trash in the area where he stays plus noted individual throwing clothes over the fence to numerous properties within the area. As we approached individual,I offered services to the individual and he immediately responded aggressively, threatening belligerent, cursing back "I don't want anything don't want anything get the fuck away from me or I hurt you and anyone that talks to me".

For safety purposes I recommend law enforcement to intervene.

Let me know if you have any questions

Thank you

Hello,

I scheduled an encampment clean-up at 1710 Naomi Ave that was slated to be serviced on 12/17. Today, the owner reached out and informed me that the encampment burned to the ground on Monday.

Is there any way you can send a crew to clean this up? Attached are photos.

Thanks in advance,

Edna

I know SAN went to assess conditions on Selma Ave. on Friday. In addition to that, we asked SAN to install several trash cans at the location without delay and for LAHSA to distribute the clear SAN trash bags.

Please advise the status of these efforts.

Thanks.

Brian

Subject: Fw: Schrader ABH, need trash bins

Hi Brian,

Please see the attached photos. This is in the Schrader Zone very close to a school. Students can not walk along the sidewalk and the trash in the area is increasing. One suggestion would be a Trash Bin; I know that we are in the 90 Day Protocol but it may be necessary to conduct a Rapid Response at this location to mitigate it growing out of control. There are other locations in the zone that need this type of attention. I have included the Hollywood Senior Lead Officer for this area who advised he is getting an increase in complaints from the Community and Businesses.

If we are able to place bins in the area then maybe LAHSA can help ensure they are utilized and educate the unsheltered individuals. Please let me know your thoughts and how we should move forward.

Thanks in Advance Brian,

Good Morning,

Please see the below E Mail and concern regarding the area across the street from City Hall and the Civic Center (301 N. Main). There is an individual just returning from the hospital with a confirmed Typhus diagnosis. He lives in a tent with cats and seven other individuals. This location is unique because Rec and Parks and GSD have some responsibility of cleaning this area. The Senior Lead Officer advises there are multiple rats and trash at this location as well.

Brian, are you able to pull a meeting together with the people in the below E Mail and maybe a County Health representative? The individual advised the SLO that he is taking his medication but I am not sure how we go about the potential cleaning of this area knowing he was infected.

Any advice will be useful, Thank You.

The following photos I took today. This is the same location, that I had emailed you on November 20th , asking for support. In the past Rec/Park has done a clean-up in the areas they are responsible for. Our Officers and I here as security services have offered them outreach on multiple occasions. We met today with Pierre Riotoc, from General Services, assistant Director of Special Services, and few more GSD staff and made them aware of the high importance in getting this area cleaned, as well as outreach services for these individuals due to the confirmed Typhus situation.

My personal contact number is Privacy, if you have any further question or concerns.

Good Morning Ma'am,

The actual address is 300 N. Main Street, Space 301 This is the old children museum/ discovery center. This is public property, which is closed to the public between the hours of 7:00 P.M to 5:00 A.M every day of the week. I am working on getting signage posted around the building as well as getting the power outlets capped. I have had the assistance of Rec/Park and they have been able to Post/Clean-Up the areas of their responsibility. The SECSO cycle unit and I have been coming in early and educating the homeless on taking down their tents as well as outreach. Majority of them have refused services. Rumors has it that the reason this area is growing with homeless and their property, is because they are being made aware in the future this location might become a winter shelter/ Bridge to Home. They also have the understanding that they will get priority if they are in the area. The Civic Center is unique in getting clean up, due to Rec/Park maintain grass, trees, plants and planters. Sanitation the Sidewalk and GSD the Civic Center property.

Thank You,

Monica Helper

Hi Monica,

We can absolutely assist you with Clean up. I have included Carolyn Cook from LA Sanitation Watershed in this E Mail as well as Officer Tyrone Acosta from OCB HOPE and Sergeant Flanagan from Central (SLO Supervisor). I have a couple of questions:

Can you give me an exact address for the locations; I noticed in one of the photos it is on a business property with a lot of trash and we need to identify if that is something Sanitation can clean or is it the responsibility of the business (from the photos this location looks like it is behind City Hall). You stated that it is Civic Center Property but an exact address would be great for Posting and Clean Up documentation purposes.

OCB HOPE can conduct Rapid Response in this area which they can schedule in between their other Central Bureau locations. Matthew from LAHSA also advised that he has a team assigned to this area daily conducting Outreach. The Homeless Help Desk located on Los Angeles Street has LAHSA Outreach workers as well as Multiple Disciplinary E6 Team members from the Peoples Concern conducting daily outreach.

Sergeant Flanagan, does Central have a Westside Detail assigned around this area that SLO Helper can coordinate with as well?

Thank You all in advance,

I could use your support on getting outreach/ a scheduled clean-up. This is located on Main St (Eastside)/Aliso. This on Civic Center Property.

I have reached out to you in the past and continue to ask for your support. Here in the Civic Center we have limited resources. This location continues to grow with Trash and Homeless encampment. I have reached out to Park Rangers and they have been able to help me in areas around the civic center, that are maintained by Parks and Recs. Although most of these individuals are not on Park Rec responsibility, but instead are on Public Property that is maintained by GSD.

Subject: Lighthouse Bridge

Good Morning,

I want to bring to your attention again , the homeless encampment under both sides of the Lighthouse bridge. When I had Officer J. Robbins and his hope team come out in May of this year and clean both sides under the bridge of the debris and the residents it

was a god send. This officer worked extremely hard to rid the problem that was occurring. This problem has risen again? Why this problem exists is because council will not budget any money towards fixing this problem. There was an offer of 25,000 but the cost of the project far exceeded this and there for the project was put on the " Will get to it later pile"? This bridge is in a dilapidated condition and yet no work to fix this problem?Thank you.

Sincerely,

Rick in the marina<Lighthousedebri-3.jpg>

Thanks, Emada. We're actually meeting with most of the council chiefs of staff this week. I'll make sure we raise this with them. You're right we're not going to be able to eliminate this entirely but hopefully we can minimize the extent of demands coming directly from council offices.

On Dec 3, 2018, at 1:47 PM, Emada Tingirides <31546@lapd.online> wrote:

Hi Brian,

Please see the below E Mails from Jose. These are the type of requests the HOPE Sergeants are getting directly from the Council District offices. They are requesting us to prevent encampments and sometimes this can get sticky especially if we do not have a permanent solution. Is it possible to re-visit the Council District offices to ensure they are funneling all of their requests through the UHRC, this way all coordination and services involved are on the same page and the HOPE Teams are not getting direction from multiple entities?

I know that this can not be completely prevented, but some offices are becoming more demanding on the teams and we have to be balanced in addressing every Division/Bureau.

Thanks Much,

Emada

Good afternoon Jose,

From the picture, these encampments seem a little too big for Rapid Response. I will have the HOPE team respond next week to conduct outreach and education. Once the CSLA is conducted, we will follow-up with this site.

I included the UHRC and the Northeast team so they are aware of this problem.

Respectfully,

Sergeant Arturo Siguenas

Guys,

CD1 is starting to get calls about the increased amount of encampments on Ave 61.

We now have about 10 tents that never come down and completely blocked entire sidewalk.

A few have set up pop up tents too.

Our next CSLA here is 12/18 so we need some help this week. After 12/18 will need help w plan to prevent occurrence as much as possible.

Thanks,

Jose Rodriguez, Deputy District Director

Hi, checking on the status of CD9's proposed Focus Area for S. Hope Street. I don't see it on the UHRC map. We need to get encampments mapped at this location ASAP.

Also, Simran, can we please make it so the full name of the Priority Area displays on the drop down menu? As it is currently, you can only see the first few words and then an ellipses.

Thanks.

Brian

Subject: Re: Site Visit to San Francisco HSOC on 12/3

The site visit to San Francisco has been rescheduled for Monday, December 17th. The program will begin at 8am and conclude between 3pm and 4pm.

The purpose of the visit is to continue discussions with SF's Healthy Streets Operation Center (HSOC) and the City & UHRC to exchange ideas, share best practices, and develop strategies to address the challenges and needs associated with individuals experiencing homelessness. The partnership and engagement with HSOC and UHRC will assist our City and County partners to effectively respond to the challenges of the homeless crisis in Los Angeles. Additional discussions will include: field observations of encampment resolutions, portable hygiene / bathroom locations, street engagement teams, re-entry programming, and meetings with representatives of the San Francisco Mayor's Office and City Attorney's Office.

We will send an itinerary as soon as it has been finalized.

Thanks.

Subject: Re: CD11 Zone

Please change the polygons back to the color scheme I asked for. The larger polygon is not the proposed special enforcement zone. The larger polygon should be orange and the smaller polygon, which is currently the boundary of the shelter, should be green.

Simran, can you do what you did in Hollywood and create heat maps of encampments in the focus area and add polygons around them to represent "enhanced outreach zones"?

Thanks.

Brian

On Wed, Nov 28, 2018 at 9:55 AM Reiner Reich Bolor <41517@lapd.online> wrote:
Good morning everyone,

I looked at the boundaries again on SALUS and based on the streets identified below, the larger polygon should be green to represent the special enforcement cleaning zone.

N: City boundary

W: Ocean Front Walk

S: Venice Blvd

E: 6th street south to where it connects with Electric, and Electric southeast to where it connect with Venice Blvd.

The smaller polygon is the proposed ABH site perimeter (100 Sunset Ave.). Until we get further guidance we can start mapping out the enhanced outreach locations.

The three flags in the Venice Area all represent different data collections:

The first one that we created is the Venice & Globe Encampment area to maintain situational awareness due to constant complaints and criminal activity. The second flag is the Venice Beach Encampment Count that Chief Moore requested Pacific Division to maintain a daily count of homeless encampments on the beach and on OFW. Then, the third flag is for the CD 11 ABH Site.

Respectfully,

Officer Reiner Bolor, Serial No. 41517

On Nov 27, 2018, at 10:35 PM, Simran Sandhu <ssandhu@hsacouncil.org> wrote:

Hi Brian,

I hope all is well. The UHRC asked the SALUS Tech Team to archive the Venice Beach Encampment Data that was collected in Oct. 2018. I believe they collected data in CD11 this morning. It was adjusted only in the UHRC Dashboard. It has now been adjusted in the UHRC Map Tool as well. Please let us know if you would like to display the data that was collected in Oct. 2018 in SALUS.

CD11 Metro ABH Focus Area is now the larger polygon. It matches the Hollywood Focus Area color scheme. It is now orange/coral. CD11 Metro ABH SECZ is now the smaller polygon. It matches the Hollywood Focus Area color scheme. It is now green.

The "Planned Event Flag" (orange) within the CD11 SECZ now has the following Event/Incident Name: CD11 Metro ABH SECZ. It now has a separate drop-down tab within the Dashboard. A new Planned Event Flag (orange) was planted within the CD11 Metro Focus Area. It now has the following Event/Incident Name: CD11 Metro ABH. It also has it has a separate drop-down tab within the Dashboard.

*Please note: the Hollywood Area only has one Event/Incident Flag associated with the entire area, so it is easier to filter in the Dashboard. The Venice area now has a total of 3 flags so the total counts will be filtered by specified flags names (i.e., SECZ, Focus Area, Encampment Count, etc.) You may want to consider using one flag within the Venice Beach ABH Site to keep it consistent with the Hollywood Area.

Please let me know if you have any questions. Happy to help.

Thank You!

-Simran

Subject: CD11 Zone

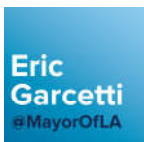

Can one of you please make the CD11 Metro ABH **Focus Area** = the larger polygon? Right now it only says 1 encampment but I can see more pins in the larger area. There should be a separate drop down tab for the CD11 Metro ABH **SECZ**, which is the smaller green polygon.

Lastly, can you make it so the color scheme matches the Hollywood Focus Area's? The SECZ should be green and the Focus Area should be Coral/Orange.

Thanks.

UHRC team,

Can we please schedule a spot cleaning of the Venice and Globe location this week, today if possible? This is a request of the Council Office, which is copied here.

Thanks.

Brian

Subject: Re: Civic center #2

Good Morning Ma'am,

The actual address is 300 N. Main Street, Space 301 This is the old children museum/discovery center. This is public property, which is closed to the public between the hours

of 7:00 P.M to 5:00 A.M every day of the week. I am working on getting signage posted around the building as well as getting the power outlets capped. I have had the assistance of Rec/Park and they have been able to Post/Clean-Up the areas of their responsibility. The SECSO cycle unit and I have been coming in early and educating the homeless on taking down their tents as well as outreach. Majority of them have refused services. Rumors has it that the reason this area is growing with homeless and their property, is because they are being made aware in the future this location might become a winter shelter/ Bridge to Home. They also have the understanding that they will get priority if they are in the area. The Civic Center is unique in getting clean up, due to Rec/Park maintain grass, trees, plants and planters. Sanitation the Sidewalk and GSD the Civic Center property.

Thank You,

Monica Helper

Hi Monica,

We can absolutely assist you with Clean up. I have included Carolyn Cook from LA Sanitation Watershed in this E Mail as well as Officer Tyrone Acosta from OCB HOPE and Sergeant Flanagan from Central (SLO Supervisor). I have a couple of questions:

Can you give me an exact address for the locations; I noticed in one of the photos it is on a business property with a lot of trash and we need to identify if that is something Sanitation can clean or is it the responsibility of the business (from the photos this location looks like it is behind City Hall). You stated that it is Civic Center Property but an exact address would be great for Posting and Clean Up documentation purposes.

OCB HOPE can conduct Rapid Response in this area which they can schedule in between their other Central Bureau locations. Matthew from LAHSA also advised that he has a team assigned to this area daily conducting Outreach. The Homeless Help Desk located on Los Angeles Street has LAHSA Outreach workers as well as Multiple Disciplinary E6 Team members from the Peoples Concern conducting daily outreach.

Sergeant Flanagan, does Central have a Westside Detail assigned around this area that SLO Helper can coordinate with as well?

Thank You all in advance,

Emada

I could use your support on getting outreach/ a scheduled clean-up. This is located on Main St (Eastside)/Aliso. This on Civic Center Property.

I have reached out to you in the past and continue to ask for your support. Here in the Civic Center we have limited resources. This location continues to grow with Trash and Homeless encampment. I have reached out to Park Rangers and they have been able to help me in areas around the civic center, that are maintained by Parks and Recs. Although most of these individuals are not on Park Rec responsibility, but instead are on Public Property that is maintained by GSD.

Lt

Harbor Inner Faith, Path, DCA Attorney's office, LAHSA (Pierre) and our LAHSA group attends to this area every day a group goes to this location. Senior Lead Lopez is very involved and active at this location. We have talked about this location as well as SLO Contreras, it is a stronghold as there is no bed availability in the area, Salvation Army allows individuals to receive mail at the location and there is strong narcotic problem. It needs to remain on CSLA for weekly clean ups until bridge housing or other solutions?

Thank you

From: Gabriela Medina <gabriela.medina@lacity.org>
Date: Wed, Nov 14, 2018 at 10:40 AM
Subject: Harbor City Greenway
To: Brian Buchner <brian.buchner@lacity.org>

Good Morning Brian:

I would like to formally request your support for the homeless encampments at the Harbor City Greenway (5500 S Waterman Way,

Harbor City, CA 90710). We have over 50 dwellers that were pushed out from LA County property across the street and have now taken over the access point to this public space.

LAHSA and LASAN have made several attempts for contact, however, dwellers have not been too receptive to services. Any additional outreach that you can provide would be greatly appreciated.

In the coming weeks we will establish a formal agreement with RAP to have rangers on site but we wish to increase outreach and access to services.

Please advise if any additional services can be deployed.

Best,

Gabriela

Andy

We need the coordination of Commander Dominic CHOI and all citywide resource elements in order to address the issues in the basin.

I know he has already been working on this; let's touch bases with him and forward officer Carbajal's email to him so that he can take that into consideration when he plans his next enforcement operation in the basin.

Hey Rob,

Yes, I go by my middle name Steve, but legal name is Hector sorry on the confusion. I've been working with Army Core of engineers, mayors office, Slo's, Park Rangers and Hope Unit on this ongoing problem and concern. We are aware of all that going on, plus they have tapped into the power poles on Burbank and have power running all over those encampments. It's a time bomb waiting for something big to happen. I just took Councilman Mitch Englandar into the area to see first hand and he was completely amazed on the problem and had no idea how bad it was. I just heard yesterday that LAFD burn team went into the area with Ofcr-Garza (Hope Unit) and took photos of all fire pits, propane tanks, etc. So I think the best bet would be to submit this request up our chain of command for support and direction as everyone just seems to point fingers on who's problem it belongs to. I CC my Captain on this email thread and my Off Road Supervisor- SGT. Alberca and will work with you on any support we can provide. I believe we need a meeting with West Valleys Captain to come up with a game plan. I appreciate your help Rob and will be in touch. Here's my number so you can reach out to me when need be

Steve,

Hector is your first name? No wonder I had trouble finding you in dept email!

Question- Are you still looking at the homeless problem off of Woodley/Burbank BI? The reason I asked is that my partner and I go to the jails full time looking for sources/informants and we found a source who has information about that area. He said the area is known as "the bamboos". This source has seen guns, Narcotics and underage girls drugged to have sex. Said it is extremely dangerous in there. Do you know if any Federal agencies that have looked at these areas?

To: Brian Buchner <brian.buchner@lacity.org>

Good Morning Brian:

I would like to formally request your support for the homeless encampments at the Harbor City Greenway (5500 S Waterman Way, Harbor City, CA 90710). We have over 50 dwellers that were pushed out from LA County property across the street and have now taken over the access point to this public space.

LAHSA and LASAN have made several attempts for contact, however, dwellers have not been too receptive to services. Any additional outreach that you can provide would be greatly appreciated.

In the coming weeks we will establish a formal agreement with RAP to have rangers on site but we wish to increase outreach and access to services.

Please advise if any additional services can be deployed.

Best,

Gabriela

Thanks, Emada. The last time there was a major cleanup in that area it was a months-long planning effort and cost the City almost \$1 million. Let's discuss what an "all hands on deck" plan might mean for departments and resources. Maybe we can come up with a proposal that gets support from the Councilmembers and Army Corps.

On Wed, Nov 14, 2018 at 12:56 PM Emada Tingirides <31546@lapd.online> wrote:

Hi Brian,

Yesterday Park Rangers went out to the Sepulveda Basin specifically Hjelte Park and removed 1 gallon of gasoline, 4 propane tanks and multiple makeshift knives. Because of safety concerns and multiple "booby traps" the Rangers did not complete the whole stretch of the basin. LAHSA was at the Sepulveda Basin last Friday and made contact with 5 Homeless individuals; they will also be at the location today. There are multiple structures, wires, propane tanks, televisions and trash along the entire Basin. LAFD responded to this location yesterday (Station 88 Captain Cooper) and his team stated that there are over 400 structures, trash, approximately 40 propane tanks, flammables in a small portion of the basin. A small brush fire broke out at Hjelte Park on November 12, 2018 which is in the "SBHEC" Zone.

The UHRC has created an Event using the Salus Mao. The event is titled "Sepulveda Basin Homeless Encampment Community (SBHEC)". The stretch of the basin is approx. 3 miles long and Officer Bolor will be identifying the areas by Zones (Orange Line Bus Way east to the 405 freeway/ Victory Blvd to the 101 Freeway). Recreation and Parks has advised that the majority of this land belongs to the US Army Corps which the City has an MOA with.

Lt. Wong of LA Sanitation is extremely knowledgeable about this location. The UHRC went to this location on September 24, 2018 along with Sanitation, LAHSA and the OVB HOPE team. There are difficult terrain challenges, and some areas can not be reached by vehicle. I would suggest that we have an "All hands on Deck" approach and meeting with all of the various City partners (LAPD HOPE, LASAN, Rec and Parks, US Army Corps, LAHSA, LAFD, DWP) and whomever else you think will add to addressing this long standing concern. I am also open to your thoughts and suggestions. I attached a write that was completed by Sanitation when the UHRC visited Zone 1 of the SBHEC which also has photos.

Thanks in Advance,

Emada

Subject: Update from Joint City/County Typhus Task Force, 11/13

Thank you for participating in yesterday's Joint City/County Typhus Task Force update call.

Present on the call: representatives from the Mayor's Office / UHRC, LA County Department of Public Health, LASAN, LAPD, LAFD, LAHSA, BSS, SAN, General Services, and EMD.

Subsequent to the call, DPH reported that, as of 11/13, there are **a total of 31 flea-borne typhus cases across the City of Los Angeles. The number of cases in the DTLA area remains at 12.**

Departments also provided the following updates:

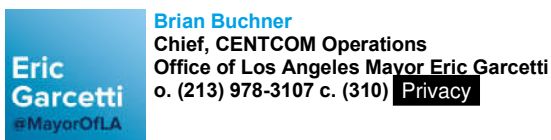

- **LASAN** continues its comprehensive cleaning efforts in the expanded Operation Healthy Streets Zone. By this Friday, LASAN will have completed its first full cycle. **LAHSA** outreach workers have been accompanying OHS teams during their scheduled cleanups.
- **LASAN** continues collecting trash twice a day throughout the affected area. LAPD has been supporting the cleanups.
- **BSS** continues to coordinate pest control efforts. To date, the pest control contractor has treated 317 burrows. The contractor has also hired a Pest Control Advisor, who is helping them develop a more comprehensive strategy. That report is due to BSS by today, Wednesday, 11/14.
- The UHRC will continue to facilitate the work of and convene the Task Force.

Please let me know if you have any questions, or if I have missed (or misstated) anything from the meeting. We will plan another follow-up call within the next two weeks.

Thanks.

On Nov 13, 2018, at 6:39 PM, Emada Tingirides <31546@lapd.online> wrote:

Hi Commander and Brian,

I just finished up with the 1800 Hrs. LAFD Fire Brief and please see the below:

- the Fire impacted 96,314 Acers
- 35% Containment with an expected full containment date of 11/17/18
- the parking restrictions will be removed tomorrow
- all City evacuations have been lifted, LA County will be lifting theirs soon
- the President (Trump) announcer cost recovery for Emergency response and debris removal
- LA County will open two "Disaster Recovery Centers" one in Malibu and the other in the Las Virgenes area.

Chief Terrazas was not in attendance and there were no specific asks from LAPD/UHRC. I updated the group on the UHRC coordination efforts of the Sepulveda basin. I did attempt to find out the request/expectations from the Fire Chief and all were agreeable that I should get that information from the Chief directly ☺.

There will be another brief tomorrow morning at 0730, I will be in attendance. The Red Flag alert was lifted at 1700 Hrs. If all goes well tonight LAFD will be scaling back their DOC early tomorrow.

Please let me know if you have any questions.

Take Care,

Emada

Subject: LAFD Red Flag Day

Hi Lt,

I spoke with Chief Nelson since Fire Chief Terrazzas left the DOC. They're asking for a rep at all times at the UHRC during a red flag day to assist with any homeless related issues. The UHRC rep would then forward whatever request LAFD is asking to the necessary individuals to take action.

Recently, homeless related topics have been brought up during their daily briefs and would like to have a UHRC rep attend to help coordinate whatever efforts are needed.

Subject: Coordination Around Needs of Homeless Angelenos

UHRC Partners -

Can you please confirm that you're all in regular communication to ensure the needs and safety of unhoused Angelenos are being considered in the emergency planning and response to the Woolsey Fire?

I have not heard any updates specially about homeless individuals in brush areas or that they need to be evacuated of how we plan to do that. Has LAHSA been invited to participate in any EOC briefings?

Thanks.

Hi Brian,

One incident to report but it is not related to El Pueblo. A homeless individual approached a security guard on Los Angeles Street and Arcadia and battered the security guard. The security asked the individual to leave the location and attempted to detain him when the individual hit the security guard. El Pueblo overtime officers and Central patrol responded to the location. The security guard demanded a Citizens Arrest for Battery and Central Patrol took over the incident and processed the individual.

The individual did not live in the El Pueblo shelter. The officers provided directed patrol in the area, checked in with staff and security on site.

Please let me know if you have any questions.

Hi Emada,

Let's add this area - Carlos Ave., behind the old Courthouse - to the UHRC's "to do" List next week. Because it's in the Schrader Focus Area we won't schedule a CSLA cleanup but we can ask LAHSA (copies here), or ask LAHSA to ask the E6 team, to go out to the location next week, if they haven't already been doing so.

Thanks!

Brian

Subject: Homeless encampment on Carlos Avenue (Hollywood Division)

Hi Brian,

I would normally send this to Monique but I received complaints from the sheriffs and attorneys in my office about this encampment on Carlos Avenue on the same side of the street as the courthouse (old Hollywood Courthouse- will be Dept 95 Mental Health Courthouse opening any day) behind the Florentine Gardens.

The new employees of the courthouse are parking in the lot on this street and have to walk through the encampment to get to work. They are all a little worried because they may get to work in the dark in the morning and leave in the evening when it is also dark.

I think this is one of the areas for the new shelter so there are no CSLA clean up scheduled (I think it is in that area but hard to tell on the map I have).

The situation here is deplorable, is so frustrating to be left out in the cold like this, Our SLO Officer Ramirez was in the process of coordinating a day with Sanitation so we could install the planters, we have the planters, we have the plants, we have the people to come and do the labor, all we need is for our Officials to come and help us clear the area so we can do the work, !!! Is been 5 months of us residents fighting this battle, is just not fair, we are exahusted, we are frustrated, we feel helpless.

Officer Ramirez what happened? you said you were going to help us. You are not returning our calls or emails when you said we will be ready to proceed this week. We have done our part where are you?

Please Captain James help us residents, is not our fault, we pay taxes, we been patient, we raised our own funds, we have been doing the hard work and will continue, all we need is for our SLO to help us one day to clean that area. We have integrity and we are hoping that our officials do too.

I'm trusting that we will resolve this soon, for everyone's sake. I'm sure you don't want to be bother everyday with this same issue and we are desperate to have a decent life here.

Sincerely

Charlie T

We did not apply for a permit. I would ask that you ask the LAPD to assist the residents in asking the campers to move their stuff so the installation can proceed. My guess is that all be well. If there is any resistance the residents can wait for a formal cleanup.

Mark -

If this is permitted then LAPD would be able to support enforcement of your permit - my assumption is that this isn't permitted. If LAPD feels comfortable with their officers politely asking but not forcibly removing people (again assuming there is no permit) then they could do that but otherwise the way we would force people to leave an area is to fulfill a permit.

-Taylor

On Tue, Oct 23, 2018 at 6:26 PM Mark Ryavec <VeniceStakeholders@ca.rr.com> wrote:

Taylor,

Might it be possible for you to lend support in another manner?

The handful of campers have just landed there in the last couple days and a cleaning by Sanitation is not really necessary.

All it appears Captain Roberts is asking for is the council office's support for the installation of a few planter boxes on the parkway, as we previously have installed, with your support, around the Post Office and along Staples.

With your approval, the LAPD can certainly support the residents in asking the campers to move their belongings by 8 am Saturday morning so the installation can go forward.

The city can save the Sanitation clean up for more deserving locations.

Thank you for your consideration of this suggestion.

Mark

On 10/23/2018 5:24 PM, Taylor Bazley wrote:

Hi Samantha -

I'm sorry but the authorization process alone takes at absolute minimum two weeks, usually the fastest I can make it happen is 3 weeks, and 4/5 weeks is more standard.

The process for a posted clean up is the request goes in, LASAN responds to do a site evaluation and pings LAHSA, LAHSA needs to attempt to demonstrate rendering of services by visiting the site 3 documented times, they convey back authorization, the interdepartmental team needs to schedule this into their operations (usually the team is only in our council district two or three days a month), and then there needs to be a posting around the area 3 days in advance.

I know some neighbors might post that work will be done in an area at a given time and that has been useful at encouraging people to move at that time but a posted sanitation clean up is sort of a heavy lift that requires weeks notice and is according to the interdepartmental clean up crew's schedule (which doesn't usually include weekends).

On Oct 31, 2018, at 2:56 PM, Brian Buchner <brian.buchner@lacity.org> wrote:

Hi All,

LAPD came out to the old West LA animal shelter this morning to clear people off the property. I then came out with LASAN and PD to assess the situation and determine how big of a job it would be and next steps.

Bottom line is it's a massive undertaking. There is an enormous amount of hazardous material and trash and it would be a multi-day cleanup job at least. Not to mention the building is not secured at the moment and is such a large property that it would be difficult to do without additional security, resources, etc.

We have a number of important questions for the Council Office and CAO about timing, cost, prioritization.

I'd like to get us all on a call today as soon as possible given the urgent need to plan and deploy resources.

Please let me know if you're available for a call at 4pm to discuss. I'll provide the call-in information after everyone confirms their availability.

Thanks.

Brian

Subject: Urgent: Call to Discuss Former West LA Animal Shelter

Hi All,

LAPD came out to the old West LA animal shelter this morning to clear people off the property. I then came out with LASAN and PD to assess the situation and determine how big of a job it would be and next steps.

Bottom line is it's a massive undertaking. There is an enormous amount of hazardous material and trash and it would be a multi-day cleanup job at least. Not to mention the building is not secured at the moment and is such a large property that it would be difficult to do without additional security, resources, etc.

We have a number of important questions for the Council Office and CAO about timing, cost, prioritization.

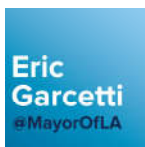

I'd like to get us all on a call today as soon as possible given the urgent need to plan and deploy resources.

Please let me know if you're available for a call at 4pm to discuss. I'll provide the call-in information after everyone confirms their availability.

Good Evening,

Please try to have a representative from your department at the UHRC tomorrow morning, Tuesday, October 30, from 7:00 AM to 9:30 AM.

Members of the Homeland Security Advisory Council (HSAC) Board of Directors will stop by the UHRC to observe it in action. HSAC is the maker of SALUS, and its staff, including Devra and Simran, has provided the City, Mayor's Office, and Departments with countless hours of support and technical assistance. Not to mention that board members like Wendy Greuel have been strong backers of the UHRC since its very inception. I would like to provide them with a

comprehensive demonstration of the UHRC's operations. The HSAC group will be present for the 8:30am morning briefing.

Please let me know if you have any questions.

Thanks.

Thanks, Emada. We are on an indefinite soft-roll out in El Pueblo until further notice. Happy to discuss further offline, but there are a number of conversations happening within our office and across the City right now about the future of 56.11 and the City's approach to ensuring clean sidewalks.

I'll make sure we address this with Carolyn and LASAN generally. Her comments below are concerning and are not aligned with the Mayor's thinking and direction to us.

Thanks.

Subject: El Pueblo observations

Hello Lt. Tingirides,

I was the Watershed lead for working HOPE Central - El Pueblo on Wednesday October 24 and Thursday October 25.

While the majority of encampments observed had their "tents down" during the operation, I was concerned with the number of tents that were not fully in compliance.

Watershed's non-written definition of a fully deconstructed tent is, ALL personal property must be taken out of the tents & pushed to the side, and the tents must be folded as close to 'factory condition' (ie folded up very small and tightly) as possible. This rule is to ensure that all bulky items, contaminated personal property and health hazards are properly removed and disposed of per LAMC 56.11. This means that just 'taking the poles out' of the tents and keeping all the personal property inside is NOT fully LAMC 56.11 compliant.

I did not enforce this rule last week since we're still on a 'soft roll out' of enforcement. But once enforcement is allowed to increase, and if I'm assigned to El Pueblo for HOPE, I will want to enforce the 'fully deconstructed' rule. If these tents are unattended, I would fully process the encampment, meaning that I would either store or discard the personal property and leave nothing behind on the sidewalk. If those tents are attended, then I'd give the occupant time to comply, and he/she would pull out everything from his/her tent and fold the tent up tightly.

Lemme know if you have any questions - thank you :)

Hi Emada and Robert,

Are either of you planning to send the UHRC email? We didn't discuss before Monique left.

I can as long as I have the information.

Thanks.

Brian

Hi Brian,

All good in the Zone today. We had the regular LAPD OCB HOPE Team in the SECZ, the Day Watch Overtime Officers performed high visibility and checked in with El Pueblo Staff.

Please let me know if you have any questions.

Take Care,

Emada

Hello Everyone,

I wanted to share this article with you so you will understand the constituents concerns a little more clearly:

http://articles.latimes.com/1985-07-03/news/mn-10192_1_baldwin-hills

On Fri, Oct 19, 2018 at 5:25 PM, Dina Andrews <dina.andrews@lacity.org> wrote:
Hello Paul,

Thank you for looping us in on this email chain between you and Jackie Ryan.

I am looping in a few additional people on this email that hopefully will be able to assist in regards to this issue.

Looping Albi in because he is the lead in or office on encampments.

Capt. Sands, Sgt Verrett and Officer Contreras, will you dispatch officers and/or the HOPE Team to see if you can get the person to move, due to Public Safety?

Denise, I believe that you may have a team with RAP that specifically deals with encampments at the park, would this be part of your area.

Cheryl, if this is the same person, your HOPICS Team has been out several times to engage. Is there any more that you can do?

Please reply, so that we may update BHHOA and constituents on this issue asap.

Thank you,

Dina

Hello Amy,

I was just contacted by Valley HOPE They have a male who is 62 years old, that went into Mission Station looking for shelter. He is wheelchair bound, due to strokes he has suffered, he has also had prior heart attacks. The male is on disability. The Valley HOPE team has not been able to contact anyone from LAHSA, to try and get him shelter. Is there any help you could provide?

Thank you,

Subject: Update from Joint City/County Typhus Task Force, 10/19

Thank you for participating in today's Joint City/County Typhus Task Force update call.

Present on the call: representatives from the Mayor's Office, LASAN, LAPD, LAHSA, BSS, SAN, EMD, and the Department of Animal Services.

The UHRC connected with the LA County Department of Public Health after the conference call. **According to DPH, there are now 11 flea-borne typhus cases in the DTLA area; however, the last case is a person who works in the DTLA area, but does not live there and is not homeless.** DPH will release the latest number of confirmed cases throughout the City on Monday, October 22, 2018.

Departments also provided the following updates:

- **LASAN** met with local BIDs to assess the impact of the expanded OHS cleaning schedule on businesses. LASAN will work closely with the BIDs and their members to minimize the impact of the new schedule on businesses. The schedule will be finalized on Monday, 10/22, and shared with the Task Force.
- **LASAN** has been collecting trash twice a day throughout the affected area. LAPD has been supporting the cleanups--not on an overtime basis.
- **LAPD** reported the Central Area Community Police Station was being treated today for fleas.
- **BSS** is coordinating pest control efforts, which will begin on Monday, 10/22. The pest control contractor will return to treated area daily to remove any dead rodents and monitor the treated burrows. (LASAN will only perform spot cleanings and not wash the sidewalks down with bleach solution. The sidewalks and areas around the burrows must be kept dry for the pest control efforts to be effective.)
- The **Department of Animal Services** has helped to distribute free flea medicine to 100 animals in the last two weeks. Animal Services posted information about flea-borne typhus on its website. The department will post information about its Wednesday clinic to distribute flea medicine on its website as soon as possible.

- **LAHSA** shared information about the pest control chemicals (Ditrac for the rodents & Delta Dust for the fleas) with individuals experiencing homelessness and shelters and missions in the affected area. LAHSA has also distributed free flea collars to clients with pets in the affected area.
- **EMD** will continue to support the work of the Task Force and disseminate general information and updates from Task Force partners.
- The **UHRC** will continue to facilitate the work of and convene the Task Force.

Please let me know if you have any questions, or if I have missed (or misstated) anything from the meeting.

Thanks.

Subject: LA Sanitation Cancellations

Hello HOPE Leadership Team,

I have spoken to most you about this subject but I wanted to make sure you are all in the loop. Over the past few weeks there have been multiple cancellations due to minimum staffing from the Watershed Teams. LA Sanitation has advised that they had someone retire, some folks out sick the Extended Typhus Zone Clean Ups, the daily El Pueblo Enhanced Clean Up Zone and that they are simply short handed and can not staff all the Bureaus, So far here is the **break down of cancellations** for each of your teams since October 1, 2018:

OSB HOPE- 5 Times

OWB HOPE- 4 Times

OVB HOPE- 5 Times

OCB HOPE- 1 Time (Due to the El Pueblo Bridge Home; less cancellations)

Starting on October 9, 2018 we began to have two Bureaus a day get cancelled. The UHRC is keeping track of the cancellations and trying to keep it equal and fair for each of your teams. If you have exigent circumstances, special media requests please let us know and we will coordinate with LA Sanitation to try and keep you scheduled. It is my understanding that Sanitation is in the process of interviewing and hiring new members and by January they will have a total of 21 teams, right now they have 9 teams currently trained and three teams in training. As each Bridge Home site opens, those locations will become your focus and your teams may only be doing Rapid Response once a week.

The next Bridge Home sites are in Hollywood (January) and Rampart Division (December; I just learned of this Rampart location today). As I get more information, I will do my best to communicate with you all and keep you in the loop. The HOPE Teams posture for the Bridge Home sites have been communication, education, warnings and protection for the Sanitation crews. I know it is frustrating and I appreciate your patience. PLEASE let me know if I can do anything else to help you and your Teams.

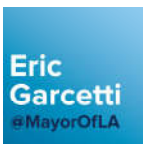

Take Care,

On Oct 17, 2018, at 5:59 AM, Emada Tingirides <31546@lapd.online> wrote:

Good Morning Brian,

I know that Monique was in contact with you yesterday regarding the individual Cited and Released yesterday by Central Division RESET Officers for refusing to comply with the 56.11 LAMC protocols. There were no additional issues yesterday; the OCB HOPE team had Rapid Response so they were not in the El Pueblo Zone.

The overtime officers advised that it was quiet, they warned one individual for walking in the middle of the street, drove and walked the Zone and checked in with El Pueblo staff.

The OCB HOPE team plans on continuing the same posture in the Enhanced Clean Up Zone-LAHSA taking the lead, education, warning and providing protection for LASanitation. I am still under the impression this posture will continue with the HOPE Team with very little to no enforcement action.

Please let me know if you have any questions. Take Care,

Hello I've tried everything to clear up the alley at 111th PL and Graham ave in LA. It is becoming a shanty town with people living in it and cooking in the alley. As you can see in the pictures it is blocked by junk and I'm worried it will burn down our neighborhood. Please send someone to take care of this.

On Mon, Oct 15, 2018 at 4:23 PM Emada Tingirides <31546@lapd.online> wrote:
Hi Brian,

The Special Enforcement Cleaning continued today in the El Puente Zone. LAHSA lead the outreach with 4 HET members. The theme for today was continued from last week; Education and warnings. There were no citations issued by LAPD or LA Sanitation. LA Sanitation removed some bulky items, shopping carts. I will send the metrics in a separate E Mail.

Today our Overtime Detail encountered a Citizen Flag Down for an individual requesting medical services. The officers called an ambulance and this was a medical emergency only. The officers also encountered two homeless individuals requesting assistance, the officers notified LAHSA who responded to their location.

There were no Part I or II crimes in the El Puente Zone last week and no arrests.

Please let me know if you have any questions. Also, do you want me to continue with Daily E Mails for the ABH site?

Take Care,

Emada

I was advised by the Officers that Solids will not come out without Watershed. Solids recovers items at the direction of Watershed. Solids established this requirement sometime in the last DP or so.

Our plan is to hit the Vermont and Florence location with rapid response first thing tomorrow before heading over to SOE Div as scheduled. Today I have the Officers going over to seek voluntary compliance and to provide LAMC 56.11 education.

Hi Sergeant Mims,

Please see the below request. Is it possible your team can go by Florence/Vermont and assess as well?

Thanks Much,

Emada

E Mail:

Hope all is well. I received a call from a constituent in South LA with concerns in regards to a homeless encampment that "has gotten out of control". The attached photos were taken last week, by the constituent, at the corner of Vermont Ave. and Florence Ave. The transients living here are described as aggressive and often times confrontational. As you can see from the photos, the sidewalk is completely covered with trash.

We are hoping you can assist by looking into this.

As a side note, the Mayor may be visiting a construction site nearby that includes affordable housing developments in the coming weeks. Any chance we can get this cleaned up before then?

Thanks!

Subject: Update from Joint City/County Typhus Task Force Meeting, 10/9
Attachments: OHS plus Typhus area.pdf; OHS plus Typhus cleaning schedule.jpg

Thank you for participating in the Joint City/County Typhus Task Force meeting on Tuesday, October 9th.

Present at the meeting were representatives from: the Mayor's Office, LAHSA, the City's Bureau of Street Services and Bureau of Sanitation, LAPD, LAFD, EMD, CAO, the General Services Department, the Department of Animal Services, and the LA County Department of Public Health. Although the City's Recreation and Parks Department was not present at the meeting, they are an important partner, in part because of parks located in Skid Row within the Zone that will need to be treated.

Attached please find maps of the County-designated Typhus Zone and the expanded LASAN Operation Healthy Streets cleaning area.

Each department provided an overview of their current efforts and operational assessment, and discussed their specific role going forward.

- The "**County-designated Typhus Zone**," as defined by LA County Department of Public Health (LAC-DPH) includes: S. Spring Street to the west; E. 3rd Street to the north; S. Alameda Street to the east; and E. 7th Street to the south.
- The **Mayor's Office** will prioritize treatment for pests at the ReFresh Spot, which is within the Typhus Zone. (This location was not specifically discussed during Tuesday's meeting but it is a priority location for the Mayor's Office.)
- **LAC-DPH** reported the three primary factors contributing to the issue are: (1) ample food source (food on the ground); (2) rodent / rat harborage; and (3) overflowing trash cans.
- **LAC-DPH** (Brenda Lopez) will connect the County's Department of Agriculture and the LA County and the Greater Los Angeles County Vector Control District for possible additional support, resources, or guidance.
- In addition to report from LAC-DPH, **LASAN** reported 25 active rat burrows / dens in the Typhus Zone, significant trash on the ground and overflowing trash cans, at least 20 animals (18 dogs and 2 cats), more than 50 homeless encampments, and a number of areas of standing water.

- **LASAN** has agreed to conduct more regular comprehensive cleanings in an expanded cleaning area to match the Typhus Zone. The expanded cleaning zone is approximately 300 acres, an increase from 100 acres previously, and will be cleaned every four weeks. Full implementation of the new cleaning schedule will begin on Monday, 10/15, at a cost of (overtime) \$300,000..
- **LASAN** will begin collecting trash twice a day throughout the Typhus Zone. LAPD will provide force protection, especially during Daylight Savings when it gets dark in the early evening.
- **LASAN** will add more trash cans throughout the Typhus Zone. LASAN has already added at least 55 trash cans as of Tuesday, 10/9. LAC-DPH will work with LASAN to identify and select the type and location of trash cans to minimize contributing to further rodent infestations.
- **LAPD** reported the Central Area Community Police Station needs to be treated for pests. Subsequent to Tuesday's meeting, a pest control company hired by the City conducted a walk-through of the station with Central Area personnel. The contractor determined the station needed to be fumigated for fleas. Fumigation will take place on Friday, 10/19.
- **LAFD** will report back to the Mayor's Office if its Skid Row Fire Station #9 needs to be evaluated for fleas and pests.
- The **Department of Animal Services**, in partnership with the [Inner City Law Center](#) and [Downtown Dog Rescue](#), will make flea and tick treatment available for free for up to 100 pets each week starting today, Wednesday, 10/10. Animal Services will hold an event every Wednesday, and possibly twice a week depending on demand and availability.
- The **General Services Department** will assist departments in working with a contracted pest control company to begin immediate treatment in the Typhus Zone to address the flea population.
- **LAC-DPH** and **LAHSA** have notified all homeless shelters countywide about the outbreak. The Department of Animal Services notified the City's six animal shelters, as well.
- **LAHSA** will continue its targeted outreach and engagement in Skid Row through the multi-disciplinary teams (MDTs) and C3 team to pass along information to their clients. LASHA will also attempt to engage with and educate faith groups that bring food into Skid Row. Finally, LAHSA will work to authorize outstanding 3-1-1 service requests (SRs) from within the Typhus Zone ASAP.
- The **Bureau of Street Services** will increase the frequency of street sweepings in the Typhus Zone, and will coordinate with LASAN to ensure the sweepings follow the comprehensive cleanups to maximize their impact.
- The **Bureau of Street Services**, in close coordination with LAC-DPH and other City departments, will develop and immediately implement a plan to reduce the rat population in the Typhus Zone, including fixing sidewalks and tree planters. This will include flea dusting, baiting or poisoning rats, and plugging active rat burrows.
- **EMD** will continue to disseminate general information and updates from Task Force partners.
- **EMD** will schedule the next Joint City/County Typhus Task Force conference call for Monday or Tuesday of next week.
- The **CAO** will check with the State to determine if the City's Typhus-response-related activities and expenditures are eligible for the State's one-time Homeless Emergency Aid Program (HEAP) funds.
- Finally, all of the above will be coordinated through the City's **Unified Homelessness Response Center**. The information and data will be mapped using SALUS and made available to Task Force partners.

Please let me know if you have any questions, or if I have missed (or misstated) anything from the meeting.

Thanks.

Brian

Dear Mr. Bonin,

For the past year, we have pleaded with your office and the city to help us combat what has become a daily struggle in the blocks surrounding our offices. In addition to numerous residential properties on our street, the area houses a number of technology, media and other businesses that clearly contribute to the economic wellbeing of Venice and surrounding area. I have been a property owner and have run my business in the area for over 20 years and have never seen the type of rapid decline that has gripped the area over the past year. Over the past 20 years, I've had a front-row seat to what it's taken to turn Venice into a hip, creative and culturally diverse area and can't help but think that we're quickly and perhaps irrevocably descending into an uninhabitable hell. My employees have been harassed, threatened and abused, and our entire area confronts the daily task of dealing with human feces, garbage and sidewalks blocked by mattresses and other debris.

I employ over 100 full and part-time employees in Venice and ask nothing more than for the City to help us deal with the issue that your policies create. The “Green Zone” designation in our area has given license to vehicle dwellers and other individuals to simply disregard any reasonable request made by the business owners and residents. I am repeatedly told whenever I respectfully try to confront issues to “fuck off” by vehicle dwellers and homeless individuals who believe that the Green Zone designation is a license to do whatever they like. As an employer, I have a fundamental responsibility to provide a safe working environment for the company’s employees, something that is made difficult by never knowing who is living in the vehicle outside our door and the never-ending health risks posed by the garbage, feces and needles that we encounter regularly. When we do call the police, we rarely get response and are forced to deal with situation on our own.

I called the police about an hour ago to report a serious issue outside of our building and will wait to see if we get any response (so far, nothing). Ironically, when I mentioned to dispatch that these individuals had been reported to parking enforcement several times, she said that “parking enforcement has been instructed not to address vehicle dwelling since there is a chance that such interaction can lead to confrontation between our officers and these individuals”, something that my employees are forced to deal with each and every day. Equally frustrating is that if one of my employees inadvertently parks on the street during the posted hours for street cleaning, they are ticketed, something that doesn’t happen to vehicular dwellings regardless of the time, day or duration of their stay. Aren’t we all entitled to equal protection under the law and the premise that enforcement is handled in a uniform manner without selective preference to any group or individual? It’s clearly not the case in Venice where law-abiding citizens selectively face enforcement for minor infractions (expired tags, parking a foot into the red, etc.) when the same infractions by vehicle-dwellers face little or no enforcement whatsoever.

The City’s inaction is making this problem worse and the lack of enforcement is emboldening even more egregious behavior and an expanding list of issues. Giving lip service to “striking a balance” with respect to the needs of the homeless, business owners and residents does nothing to solve the very real problems that we face each and every day. City services that are supposed to take days often take weeks if not months. We have requested graffiti removal at the end of our street for the past two-months with no response from the city and recently had an abandoned vehicle that took nearly two-months to remove. If the City is going to create a “Green Zone”, isn’t it up to the City to deal with the fallout?

I have repeatedly made requests to your office arrange a time for a meeting with the businesses in our area to discuss these issues and the options that exist. To date, we have not received any substantive response which leads me to believe that inaction will continue to remain the SOP. I hope that I’m wrong and that your office will take the time to address these issues.

Kind regards,

John R. Baudhuin

Subject: Follow-Up & Action Items from CENTCOM, 9/27/18

Good Morning,

Thank you for participating in the CENTCOM homelessness meeting with Mayor Garcetti on Thursday, 9/27. At the meeting, we discussed speeding up the process for siting and building bridge housing facilities across the City and managing these projects through a single website. Specifically, we discussed the following:

1. A Bridge Home Project Management Website - Per the Mayor's direction, last Thursday's meeting was the first "CompStat-style" project management meeting. The City Engineer, Gary Lee Moore, and Deputy City Engineer, Ted Allen, demonstrated the online A Bridge Home project management website. All City departments are expected to use the website and keep it up-to-date. The Mayor asked that the LAPD (Senior Lead Officers) and LAFD (Rescue Ambulances) have the ability to add comments in each project field. Also, BOE will add timelines from the CAO's "tracker" to include 90 days before and 30 days after a site is projected to open.

The website is: abridgehome.lacity.org (no "www"). You and your staff all have accounts.

- Log in: Your @lacity.org email address
- First-time password: newuser (the site will prompt you to change your password)

2. Further Consideration of 7600 Tyrone Ave. - The Mayor asked DWP directly to reconsider using a portion of the proposed Tyrone Ave. site, which is approximately 753,000 sq. ft., for a temporary bridge housing facility. DWP is developing the site for a water plant/facility, but it won't break ground for nearly two years. The Mayor's Office is planning a walk-through of the site with CD2 - and DWP - within the week or two. DWP (Marty Adams) will continue discussions internally.

3. Remediation of 5800 S. Figueroa St. - DWP will provide an actual soil / site remediation schedule for the proposed site at 5800 S. Figueroa ASAP. DWP committed to covering the full cost of remediation.

4. Additional Sites and Issues - Staff and departments presented status updates for all current A Bridge Home sites under consideration, planning, or construction. The Mayor offered to assist with discussions and efforts regarding several proposed sites, including 828 Eubank Ave. (CD15), 515 N. Beacon St. (CD15), and 5161 Sepulveda Blvd. (CD4). The Mayor's Office of City Services was going to help facilitate meetings or calls with the State (Tidelands), Caltrans, and possibly with Colonel Gibbs, the outgoing Colonel of the Army Corps in Southern California.

Follow-up Items from the 8/20 CENTCOM:

- **Emergency Hiring Plan** - The Mayor directed his staff and the City Engineer to develop a plan for hiring staff and consultants to help manage the process for siting and building bridge housing facilities across the City. The Mayor's Office also included GSD in this plan. The Mayor's Office will present the hiring plans to the CAO as soon as possible.
- **Mayor's Office and LAHSA Data Sharing Agreement** - The Mayor directed his staff and LAHSA to execute a data sharing agreement. The Agreement was fully executed on September 18, 2018.
- **Homeless Encampment Engagement, Triage, and Trash Removal Protocols** - The Mayor approved the proposed encampment protocols, with minor modifications. Following the meeting, the City Attorney's Office provided additional input and edits. The final version is currently under review.

Please add to or revise your respective commitments by **COB on Thursday, October 4th**. If we do not hear from you by then, we will assume that our restatement is accurate and will hold you to these commitments.

Thanks so much.

Brian

Dear Sandra

I need your help.

UP would like to install a fence on the dirt portion of the area underneath the Railroad bridge a this location. I understand we may need to get some type of approval from the City of LA. We will not block pedestrian access but this bridge has been burned out and we are trying to prevent a catastrophic incident. Fires are from the homeless living underneath the bridge.

Please let me know who I can call on this issue. We may not need a permit but I am not sure.

Lupe C. Valdez

Union Pacific Railroad

Privacy
Privacy

Below is the need and why were hoping to get the final sign off, any help would be greatly appreciated:

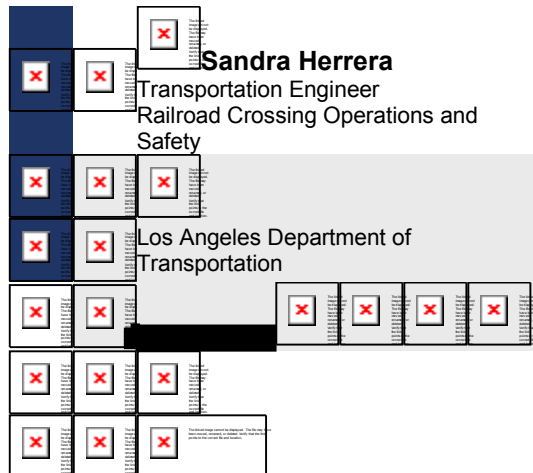

- We have averaged 3-4 transient warming fires each year, with at least one of those fires causing significant damage.
- So far in 2018 Union Pacific has spent over 10K in clean up costs.
- The project (fence bridge wrap) is estimated to cost 21K, without it we will spend more money each year cleaning up the area, in addition to further increased risk of major fire or track outage events.

Subject: Homeless Man Critical After Brutal Attack In Palms – CBS Los Angeles

This happened at the Venice & Globe location. I think we should talk with CD11 and LAHSA, though LAHSA hasn't been truthful with us about their recent efforts there, about a strategy for clearing it.

https://losangeles.cbslocal.com/2018/09/22/homeless-man-critical-after-brutal-attack-in-palms/amp/?_twitter_impression=true

Homeless Man Critical After Brutal Attack In Palms

September 22, 2018

PALMS (CBSLA) – Authorities are investigating an attack which left a homeless man critically wounded early Saturday morning in Palms, [the fifth such attack](#) in the past week.

At the scene of where a homeless man was critically wounded in an attack in Palms, Calif. (Credit: Roman Samiley)

According to Los Angeles police, at around 4:30 a.m. officers responded to a report of an assault with a deadly weapon in the area of Venice Boulevard, under the 405 Freeway. The victim told police he was attacked by someone with a sharp object who then fled.

The victim was rushed to a hospital in critical condition. The exact nature of his injuries were not confirmed.

In the early morning hours of Sept. 16, [three homeless men were beaten unconscious](#) by a suspect with a baseball bat while sleeping in downtown Los Angeles. Two of the men later died, while the third remains in critical condition.

Their names have not been released.

Surveillance video of a man suspected of viciously beating three homeless men in downtown L.A. on Sept. 16, 2018. (LAPD)

On Thursday morning, 39-year-old Steven Cruze Jr., a father of two, [was found beaten to death under the Santa Monica Pier](#). His family [told CBS2 he was a fisherman](#) who sometimes slept on the beach before heading in to work.

Surveillance video of the suspect in the downtown attacks has been released. The suspect is described as a white or Hispanic man, 30 to 40 years old with bowed legs and a distinctive gait.

“I think we’re looking at people that are just isolated, and he’s trying to find some property of value, possibly money,” LAPD Capt. William Hayes told reporters Monday.

It is unclear if investigators believe the attacks in Santa Monica and Venice are linked to those in downtown L.A.

Subject: Fwd: Meeting on KNBC fire danger and encampments story

Good afternoon, and happy Sunday!

Wanted to give you all a heads up that tomorrow (Monday) at 2pm, we - as in those of us on this email chain - and our Comms office will be convening at the UHRC to discuss the current encampment situation in the VHFHSZ. KNBC is doing a story on this (see below) and we need to make sure our respective bosses and Comms shops are fully briefed and up-to-date.

Prior to that, can we confirm the encampment data in SALUS within the VHFHSZ is current?

Pat - I recall you saying it was, and is actually updated regularly, if not daily, by your members (and the data populates in near real-time in SALUS).

We'll huddle in the UHRC in the morning to prep for this meeting.

Thanks!

Brian

Hi everyone - I think we all need to get together to discuss the story KNBC plans to run. Eric Leonard just sent Alex the following:

The Mayor said at his August availability – that he envisioned teams of LAHSA outreach workers, LAPD, and sanitation going out to the mapped locations on the high fire danger days to encourage the wilderness campers to move. Do you know if there's a plan in place to do this at a moment's notice? The agencies seemed caught off-guard when we asked for details and deferred to your office. I'd like to be able to include

specifics – like – ‘the city’s been divided into X zones and XX workers will visit the sites...’ etc. I neglected to ask the Mayor why he was okay with the campers being out in the brush areas on all the non ‘red flag’ type days – because clearly a destructive fire could be ignited any time.

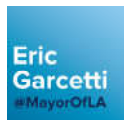

The original map of the encampments was created during the week or 10 days after January 5, 2018. I can’t imagine the encampments that were there then, are there – now. Do you know if there have been efforts to do a complete re-check of the high fire danger zone areas since then? I know there have been piecemeal additions to the info as residents phoned complaints to the City/council districts/PD/etc.

Lastly – the locations mapped in the original survey were categorized as City property, private property, or other-government property. Do you have a breakdown for how many of the encampments were on City property?

Can people meet on Monday to discuss? We can set up a dial-in for those who can't come to City Hall in person.

Thanks,
Suzi

Are there funds available to secure the site? The Council Office just removed an elaborate encampment equipped with electrical power stemming from the power pole at the site. While we are awaiting the LADWP to complete their relocation of the power pole we need to make sure that the site remains free of encampments. Please give me a call to discuss this matter?

Hi Brian,

Please see the below update for El Pueblo today:

3 Citizen Flag Downs

Exempt: Investigatory

The Officers met with El Pueblo Staff, Security, and a Homeless individual (known as Tan) at the Bridge Home facility. The officers advised that the Staff was very friendly and appreciated police presence.

There were no new individuals in the area and no critical issues in the El Pueblo Zone.

Please let me know if you have any questions or concerns.

Hi Brian,

The Overtime details are going great. The offices have been tasked with conducting 2 “Check In’s” on site per “Watch”, with the Security and Staff.

The officers walk foot beats and drive the entire Pueblo Zone. I have spoken with Staff there and they are pleased with the LAPD response. No arrest or enforcement activity this week.

The UHRC does a 1530 Hrs. check in with the officers assigned each day and will be receiving weekly reports from the Lieutenant overseeing the Overtime Detail out of Central Division.

Please let me know if you have any questions.

Subject: Follow-Up & Action Items from CENTCOM, 8/20/18
Attachments: ABH Protocols_rev-1.docx

Good Morning,

Thank you for participating in Monday's CENTCOM meeting with Mayor Garcetti and Councilmember O'Farrell. In addition to the thoughtful discussion and analysis, there were a number of concrete commitments made that will help us move expeditiously to build shelters in El Pueblo, Hollywood, and across the City and begin planning the deployment of resources and strategies according to protocol.

As was discussed, a key component of the CENTCOM framework is accountability and data, follow through, and follow up. Below is our restatement of the **five (5) commitments** and **action items** discussed and agreed upon during the meeting. They are as follows:

1. Emergency Hiring Plan – The Mayor directed his staff and the City's Chief Engineer to report back in one week with an immediate plan for hiring staff and consultants to help speed up the planning, pre-development, and construction process for temporary homeless shelters across the City.

2. 1533 Schrader Ave. Focus Area – The Mayor and Councilmember O'Farrell approved the proposed Focus Area for the Schrader Ave. shelter. The outer boundaries of the Focus Area include: Highland to the west; Franklin to the north; Western to the east; and Melrose to the south. The larger Focus Area comprises three enhanced outreach zones, which will receive lighter enforcement by LASAN, and the Special Enforcement & Cleaning Zone, which will receive enhanced services thirty days after the shelter opens. The enhanced services will include four days a week of HOPE Teams and one day a week of comprehensive street and sidewalk cleaning -- Clean Streets L.A.

3. "CENTCOM CompStat" – The Mayor directed his staff, with support from the City's Chief Engineer, to quickly implement "CENTCOM CompStat" to help ensure Departments reduce bottlenecks and adhere to the

aggressive construction timeline outlined in Executive Directive No. 24. The Mayor also directed City departments to comply with guidance and direction from the Bureau of Engineering as though the Bureau and the City's Chief Engineer were speaking on behalf of the Mayor and Mayor's Office.

4. Mayor's Office and LAHSA Data Sharing Agreement – The Mayor directed his staff and LAHSA to execute a data sharing agreement by no later than Friday, August 24th.

5. Homeless Encampment Engagement, Triage, and Trash Removal Protocols - The Mayor approved the proposed encampment protocols, with minor modifications. The City Attorney's Office is currently reviewing these protocols. A copy of the revised draft protocols is attached.

Please add to or revise your respective commitments by COB on Thursday, August 23rd. If we do not hear from you by then, we will assume that our restatement is accurate and will hold you to that.

Thanks so much.

Subject: Another UHRC location

I have been asked to add the area around 1420 Paloma Street to the UHRC's coordination efforts. This isn't about homeless encampments, however. It was a request for assistance from LASAN to clean up trash and illegal dumping sites around the location. This specific location is being discussed as a joint shelter effort between the City and County. We want to ensure all partners are on board and don't get turned off by the amount of trash in the area.

We can discuss on Thursday.

Thanks!

Good afternoon,

Here are the pictures of 7400 block of Figueroa Street. Officers contacted 4 homeless subjects and LAHSA attempted to provide outreach, but it was declined.

Privacy

On August 1, 2018, Rapid Response conducted enforcement at this location; there was approximately 7 encampments at that time.

Respectfully,

Sergeant Arturo Sigüeñas

Homeless Outreach Proactive & Engagement (HOPE)

Officer in Charge

Operations-Central Bureau

Also, I'll reach out to the Council Office today about this location.

Thanks.

Brian

Hi Emada,

Can you please have a HOPE Team from OCB go out and assess encampments located at the 7400 block of North Figueroa? Northeast Division, in Eagle Rock (I think). Pictures would also be great (maybe also use the encampment app?). Would be ideal - but not necessary at this preliminary phase - for LAHSA outreach to accompany the officers to help get intel on who is living there.

If possible, can you please report back later today on the location? This is going to be an area we're working on for a bit. Will explain more on Thursday when I'm back at the UHRC.

Thanks!

Brian

Subject: Notes from UHRC Policy Group Meeting, 8/2
Attachments: Notes from 7-26-18 UHRC Policy Group Meeting.pdf

Thanks for participating in yesterday's UHRC Policy Group meeting. We discussed the UHRC's ongoing operations, the draft encampment protocols, and criteria to triage and prioritize requests for assistance.

UHRC Operations:

- The UHRC continued its operations, from 7am to 5pm, Monday - Thursday. The UHRC has also been receiving an increasing number of requests for assistance and coordination from LAHSA, Council Offices, departments, etc.
- The Policy Group has been happy with the UHRC Daily Activities Email and had no additional input for additional information or changes.
- The Policy Group continued its discussion of criteria for how to triage and prioritize requests for assistance. A draft will be circulated to the Policy Group at a future meeting. HSAC is working to develop an index of the criteria within the SALUS platform, as well. The group discussed consideration of the following factors from last week, as well as an additional item from this week:
 - A Bridge Home Shelters / Special Enforcement & Cleaning Zones
 - Very High Fire Hazard Severity Zones (VHFHSZ)
 - Vulnerable Populations, which are defined by LAHSA as:
 - Families with infants
 - Older adults above age 70
 - People with physical disabilities
 - Survivors of Intimate Partner Violence
 - Transitional Age Youth 18-24
 - Proximity to Sensitive Locations (e.g., schools, licensed daycare facilities, etc.)
 - ADA Enforcement and Access to Private Property (e.g., driveways and businesses)
 - Proximity to Disability Centers and Clinics

- Violent Crime at the Location (e.g., Venice & Globe location in CD11)

SALUS:

- LAFD has provided the UHRC with access to VHFHSZ and HFSZ.
- LASAN has provided the UHRC with access to its encampment indexing data (not public facing)
- HSAC is continuing to work on rolling out the app City-wide within the next month or two..

Training:

- On Monday, July 30th, The People Concern provided trauma-informed care training to the UHRC staff. We received very positive feedback from participants. In fact, we are looking for opportunities to provide TPC's training to additional sections and divisions within departments, specifically the LAPD.
- On Monday, August 6th, the City Attorney's Office and LASAN will provide L.A.M.C. 56.11 Training to the UHRC staff.
- The Mayor's Office is working with LAHSA to provide outreach practices and protocols training and the Strauss Institute at Pepperdine to provide conflict resolution training to the UHRC staff at future dates in August.

Encampment Protocols:

- On Wednesday and Thursday, the Mayor's Office received feedback on the draft protocols from the City Attorney's Office, LAPD, and officials from the County -- LAHSA, DHS, DMH, and Office of Homeless Initiative. The Mayor's Office will incorporate as much of the input as possible and send the revised version to the Policy Group for review by the next meeting on 8/9.

Future Agenda Items for the UHRC Policy Group:

- A Bridge Home Messaging (requested by CD4, CD11, & CD13, who were all at Thursday's meeting). The CDs requested the Mayor's Communications Team be involved in the discussion. The Mayor's Office and CAO agreed to share a FAQ document for A Bridge Home that is currently being developed. Several council offices mentioned they, too, have developed FAQ documents for A Bridge Home.
- The Mobile Pit Stop Program, including a discussion of how the bathroom attendants can use or coordinate with the UHRC.
- RV Voucher Program - LASAN is partnering with private and City RV disposal stations to provide vouchers as a supplemental service for individuals living in RVs who are enrolled in services for housing placement.
- A Bridge Home "Pop Up" Information Booths that may feature virtual tours of proposed shelters..

Additional:

- Several members of the group discussed remarks made by Mr. Edward Jenkins, a Pit Stop Ambassador, at the Special Homelessness and Poverty Committee Meeting on Wednesday, August 1st. Mr. Jenkins is a bathroom attendant at the Venice Beach Pit Stop location and spoke about the positive impact the program has had on his life and the lives of other ambassadors and users of the bathrooms. Here is a link to his remarks: Agenda Item #6 (**Mr. Jenkins' testimony begins at minute 21:30**): http://lacity.granicus.com/MediaPlayer.php?view_id=103&clip_id=18226

The next UHRC Policy Group meeting will be Thursday, 8/9, at 1pm in the CENTCOM Room, 22nd Floor - City Hall.

Notes from the 7/26 UHRC Policy Group meeting are attached for your reference.

Please let me know if you have any questions, or if I have missed (or misstated) anything from the meeting.

Thanks so much!

Brian

Hello,

Exempt: Investigatory

Can you please send someone to respond to this? What is the proper protocol for a concern like this? I've reached out to the SLO in the area and have had a very difficult time getting them to respond.

Location: Exempt: Investigatory

Please advise,
Edna
